

16 Polish Persons To Trial

LONDON, June 14—(P)—The Moscow radio said today that the 16 Polish political leaders accused of "terroristic acts" behind Red army lines would be tried "within the next few days."

The broadcast named General Bronislaw Okulicki, as ring leader of the Polish group which it said would be charged specifically with "organizing terroristic acts and maintaining illegal wireless transmitters in the rear of Soviet troops in Poland."

Earlier, Moscow had announced the arrival of Warsaw delegates to the Big Three conference over the future of Poland. The Polish government in London expressed indignation over the meeting, which aims to form a Polish government of national unity.

The Moscow broadcast about the impending trial said:

"Investigation by the chief of the military office has now been completed. In this case a total of 16 persons will be tried. The case has been put before the military collegium of the Supreme Court of the U.S.S.R. for investigation. Hearing of the case will take place in the next few days."

Board and Commissar

The collegium under the Soviet system is a board headed by a commissar.

Coming virtually on the eve of the meeting of the Big Three representatives in Moscow, the Soviet announcement may develop diplomatic repercussions. There had been rumors—entirely unofficial and inspired mostly by unconfirmed Paris reports—that Harry Hopkins, President Truman's emissary, succeeded in obtaining the release of at least some of the 16 Poles.

Prime Minister Churchill said in Commons a few hours before the broadcast that British-Russian relations had improved markedly in the last week because the deadlock over Poland had been broken. Education Minister Richard Law said yesterday that release of the 16 Poles would help in promoting some compromise between rival Polish factions.

One For Release

The London press has carried reports that former Premier Stanislaw Mikolajczyk, one of those invited to the Moscow conference at the insistence of the United States and Great Britain, was ready to demand release of the arrested Poles before agreeing to participate in any new and broader government.

The Moscow announcement mentioned by name only Okulicki, commander of the Polish home army owing allegiance to the exiled government in London.

Okulicki took over his command after Gen. Tadeusz (Bor) Komorowski was captured by the Germans after leading the Warsaw uprising a few months before the Russians captured the Polish capital.

Plane Forced To Turn Back

WASHINGTON, June 14—(P)—A big army plane carrying six senators and 13 soldiers was forced to turn back to Casablanca when motor trouble developed two hours out over the Atlantic, Senator Gurney (R-SD) said today.

Gurney, one of a group of senate military and naval affairs committee members which toured Europe, said the mishap occurred yesterday morning at the start of the return trip to the United States.

"And if any one on that plane says he wasn't scared, he is quite a liar," Gurney grinned to a reporter.

A loose connection in the gas line let in air, causing spitting and missing that was audible to the passengers, he said.

Other senators returning early today on the plane were Stewart (D-Tenn.), McClellan (D-Ark.), Byrd (D-Va.), Revercomb (R-W. Va.) and Eastland (D-Miss).

Home Town and Kansas City Plan to Entertain President

INDEPENDENCE, Mo., June 14—(P)—Harry S. Truman will be home this month for the first time since he became president.

The president plans a two-day stay here on his return to Washington from the United Nations conference in San Francisco. The dates, probably June 27 and 28, remain indefinite because of the unpredictable termination of the conference.

The highlight of his visit will be a program in Kansas City's Municipal Auditorium on his second night home. There the president will make a brief talk after receiving an honorary degree (Doctor of Laws) from the University of Kansas City.

On his first night home he will make another short talk in the Latter Day Saints church in Independence.

Since the president has asked that the homecoming celebration be modest, no parade will be held.

Tentative plans call for the president to spend his first day at home in Independence, his second in Kansas City where he maintains an office. He has expressed a desire to friends here that his visit be informal.

Guest Officers At Kiwanis

Jefferson City and Sedalia Kiwanis clubs exchanged presiding officers and programs Thursday. President Clyde Heynen of Sedalia going to the Capitol City and President Edgar M. Eagan of the latter city coming to Sedalia.

Accompanying President Heynen as guest speaker before the Jefferson City club was Mrs. Harry Lindstrom, wife of Kiwanian Lindstrom.

President Eagan brought with him the Rev. Henry Damm of the Evangelical church, who spoke before the Sedalia club about the San Francisco Conference. His talk was an educational one explaining the conference organization, its objectives and preliminary accomplishments.

Ray Hunt called attention to Father's Day Sunday and asked members to attend church that day. George H. Scruton announced the Elks Flag Day services to be held at Liberty park Thursday night.

Guests were: Charles Messerly, former charter member of the Sedalia club and now president of the Rotary club in St. Louis, Mich. where he lives. He was with his father-in-law, W. M. Johns.

Clarence Evans, Missouri Pacific tower operator, became a new member of the club and was inducted by the Rev. Bird Campbell of the Education committee.

Many Killed in Train Crash in Italy

ROME, June 14—(P)—Two trains carrying Italians and Allied military personnel collided near Orvieto today.

The Rome railroad traffic manager received a telegram saying 50 bodies had been counted but "the number of dead is known to be much larger."

Combat Casualties

WASHINGTON, June 14—(P)—Combat casualties of the army and navy during the war reached 1,017,097 today, an increase of 5,048 in the last week.

The increase was one of the smallest weekly rises in recorded and apparent reflected the end of fighting in Europe.

The committee in charge of the Flag Day program is composed of Carl F. Urban, chairman, Carl Schrader, W. M. Ilgenfritz, Sam Higleyman, J. W. Reid, J. F. Downs and A. A. Studebaker.

They're Using 'Our Language'

SAN FRANCISCO, June 14—(P)—The state department is drafting in what President Truman calls "Missouri language" a report to the nation on American efforts to unite with other countries in a United Nations organization.

This document is designed to become a layman's guide on results of the United Nations conference, as well as a handy reference volume for the senate when it begins consideration of the charter drafted here.

Submitted as a report to the president, it will provide the state department's official version of the basic principles underlying the charter. The document is being drafted under the direction of Archibald MacLeish, assistant secretary of state.

While it will be written largely in the language of the Man in the Street, it also will contain the American interpretation of controversial charter points and thus serve the senate in the absence of official conference minutes which may not be compiled for some months.

3rd and 7th to Occupy Reich

WASHINGTON, June 13—(P)—Secretary of War Stimson said today the Third and Seventh armies have been selected as the American army's occupation forces in Germany rather than the 15th army.

He did not, however, disclose the future of the 15th army, which until recently has been viewed as the probable occupation outfit.

Gen. George S. Patton, Jr., commander of the Third, who was present at Stimson's news conference today, will return soon to his command in Europe, the secretary said.

The Seventh army was commanded by Lt. Gen. Alexander Patch, but he returned to the United States recently, and was succeeded by Lt. Gen. Wade H. Haislip.

Charge Doctors Incompetent

WASHINGTON, June 14—(P)—Testimony that the army assigned incompetent doctors and attendants to the veterans hospital at Northport, N. Y., developed today during a house committee's investigation of the institution.

Col. Louis Verdel, manager of the hospital where 15 soldier-attendants were court-martialed recently on charges of abusing patients, told the house veterans committee that half of the more than 300 soldiers assigned by the army to the institution are unfit for the work.

"If God gives his benediction to Schaeffer said the new government without difficulties," the provincial civil government head told Bavaria's 10,000,000 inhabitants in a radio talk.

Schaeffer painted a grim picture of southern Germany's present situation but emphasized order and peace. He said:

"Transportation difficulties will be solved. The courts will resume their activities, German judges will administer justice in a clear and honest way. Justice will be sacred again."

Schaeffer said the new government would purge the land of Nazis "with strict and immutable justice." He added:

"Twelve years of Nazi megalomania and crime have left us nothing but a field of ruins such as Europe never has seen before. The German people are not fully aware yet of the extent of suffering and chaos for which the Nazis and their willing and economic neophytes are guilty."

"Our best men were sacrificed in this war of madmen. Our towns are in ruins. Our industry is destroyed. Our agriculture and our forests are plundered. Our nation's prosperity is broken down for decades. And, what is worst of all, our youth is corrupted by the Hitler Jugend."

Schaeffer declared that "Hundreds of thousands of Germans were victims themselves and millions of Germans did not agree with these deeds."

Dictatorship Gone Forever

"Germany shall never get a centralized dictatorship again," he declared. "Prussian Germany and her philosophy have grown with Nazism and died with it. Those twin brothers of Nazism—militarism and blind subordination—also must disappear. They are not Bavarian. They are poisonous weeds which grew out of the Germanization of the south."

Schaeffer gave this basis for collaboration with the Allied military government:

"From an American officer I have heard wonderful words. When I spoke to him about the misery of my country and about the gap between our people and the victorious nations, he said: 'I am a believer and all of us, Americans and Germans, are children of the same God.'"

This gave me confidence. Those who love God will love all his children—all."

A Drink of Liquor Would be Expensive To Wealthy Clubman

PHILADELPHIA, June 14—(P)—Maj. Wakeman Griffin Gribbel, wealthy Philadelphia clubman, must forfeit a \$50,000 bond if he takes a drink of intoxicating liquor during a seven years' probation period or fails to report monthly to quarter sessions court.

Gribbel, World War I veteran, was placed on probation yesterday and ordered to post the bond after pleading guilty to charges of stabbing a waiter in December, 1943.

Small Nations Struggle Down To One Item

Insist on Right To Withdraw When They Wish

By John M. Hightower Associated Press Diplomatic News Editor

SAN FRANCISCO, June 14—(P)—The struggle of small nations to protect themselves against the big power control of a world league finally boiled down today to one demand—the right to withdraw from the organization whenever they wish.

Indications are that this demand will be granted, although with some strings attached. The big powers, having triumphed on the veto issue, are agreeable provided they now get two other things they want:

1. A restriction that the charter being drawn up at the United Nations conference cannot be amended except on complete agreement of the United States, Britain, Russia, France and China.

2. A punishment clause under which nations judged guilty of grave violations of the charter would be expelled from the organization.

These are the main, closely related problems for the closing days of the conference. Prolonged discussion of them appears to be one of the chief reasons why the conference leadership has once more delayed the adjournment goal, this time from June 20 to June 23.

Working Weekend

To make this time schedule the Big Five agreed yesterday that the weekend ahead should be a "working weekend" with Sunday meetings as necessary, possibly including even a full-dress session of the conference.

Alger Hiss of the United States, conference secretary general, reported that final texts of the charter in five languages—Russian, Spanish, Chinese, French and English—are being kept up to date as committees finish their work. Copies in these languages must be ready for signing at the final session at which President Truman will speak.

It appears possible that the signing may not be completed, however, until many weeks later in Washington, since none of the delegations will want to sign a foreign language text until its own language expert has satisfied himself about its accuracy.

'Just Took the Bridge' States Pfc. Reed

Sedalian Awarded Silver Star For Rhine Crossing

Pfc. Martin Reed, Jr., son of Mr. and Mrs. Martin Reed, 316 East Boonville, in a recent picture that appeared in the Charleston, S. C. Evening Post, was showing the Silver Star he was awarded for being one of the nine privates to seize the Ludendorf bridge at Remagen in March, opening the American drive across the Rhine. In the picture he is shown aboard the army hospital ship Louis A. Milne as it neared the Charleston port of embarkation. Shown with him were Pfc. Raymond Kauble, 26, of Perry, who was shot by a sniper in Germany and Sgt. Charles Rand, 38, Cartersville, Mo., transportation corps signalman who was wounded in Hamburg, Germany. It was an official U. S. Army photo.

The following article accompanied the picture:

"One of the nine infantry privates who captured the Ludendorf bridge at Remagen to spearhead the American drive across the Rhine river arrived home yesterday."

"He is Private First Class Martin J. Reed, Jr., 22, of Sedalia, Mo., who was one of the 937 American sick and wounded arriving from Avonmouth, England, aboard the army hospital ship Louis A. Milne at the Charleston Port of Embarkation. He and the eight others were awarded Silver Stars."

"A member of Company A of the 27th Infantry battalion, Pvt. Reed arrived at the west side of the bridge shortly after 11 o'clock the morning of March 7."

"Reconnaissance patrols reported that the bridge was intact. Private Reed related from his bed on the mercy liner. He was shot by a sniper in mid-April. 'Our company was assembled and we were told that we were to take the bridge. That was all there was to it—just the order: 'Take that bridge!'"

"Three platoons split up and flanked ours as we moved closer about 2 o'clock in the afternoon. An enlisted man from the engineers moved ahead of us after we forced the krauts back to the far end of the bridge. He started to remove the demolitions."

"From then on it was easy. There were nine of us and we started across. The only trouble we had was with a machine-gun in one of the towers on the east side. Private Phillip J. Lawrence and Private First Class Jack Berry cleared them out with hand grenades."

"That engineer, meantime, was under the bridge, cutting away the TNT. We didn't have much time to think about the explosives on the way across, because we were too busy dodging the grenades and mortar shells the Nazis were tossing."

"We really hit the opposition on the other side. There was a steep incline on top of which was an ack-ack gun. The Germans turned it on us and opened up. The massacre was really horrible. We called the spot 'Flak Hill.'"

Memorial to Victims of Horror Camps

DACHAU, Germany, June 14—(P)—Two stone columns 50 feet high, one topped by a cross and the other by the Star of David, are being erected here by German civilians under the direction of Allied military government authorities to mark the mass grave of 3,500 Dachau concentration camp victims.

The grave will be covered with roses blooming from April through November and before it will be the columns and a spacious plaza. Nearly a quarter mile of broad stone steps will lead up to the site, located on a hill north of the city.

The memorial will cost 500,000 marks—\$50,000 at the military exchange rate—which will be drawn from German funds. The labor is being performed by 150 German civilians. The stone is coming from the great Nazi-built Nuernberg stadium.

"It looks like a muddy mess and the people out there want to keep it stirred up," J. N. Ham, district board executive, said in a long distance telephone message to a newspaper reporter today in reference to the "troubled waters" of the Pettis county rationing board.

Mr. Ham was called today and asked whether William M. Ilgenfritz, acting chairman of the board since the resignation of Roy Snyder Tuesday, was in Kansas City today to be sworn in as the chairman and if Mr. Snyder, who went back to the Price Panel board, was being appointed to his former place as chairman of the board.

Mr. Ham said that as far as he knew Mr. Ilgenfritz was not in Kansas City but is acting chairman, that Mr. Callaway, the district director, was at the regional office in Dallas, Tex., and he was sure he had no appointment with Mr. Ilgenfritz for today for the purpose of making him chairman. He said he was unaware of the fact that Snyder was the Price Panel Board chairman, but said he was back as a board member. As to his appointment as chairman of the panel, that is strictly up to the rationing board chairman.

No Change in Supervisor

Asked if Clarence P. Short was to be transferred as was requested by a group of the local board members at a meeting recently, he replied, "No, if that is what it takes to settle things, they'll stay muddy for five years if that is what they want."

When questioned concerning Mr. Snyder being put on as a panel member he said that he personally didn't know of anything which necessitated the resignation of Mr. Snyder as the board chairman. Queried about Mr. Botz's removal and the reason, he replied "Yes, for the way he acted as a member in front of the tire clerk and his talk to the district supervisor, Mr. Short."

Meeting This Morning

A meeting of more than fifteen members of the various rationing board panels was held in the offices of the Chamber of Commerce, this morning, for the purpose of insisting on a visit to Sedalia by J. G. Callaway, district director, to discuss the Pettis county troubles, and to acquaint him with the position of the board members.

C. L. Hanley, a member of the board since rationing began, acted as chairman of the meeting. During this meeting it was brought out that the board members want the people of Pettis county to know that there is no dissension among the boards and that as far as they are concerned harmony exists among the panel boards as a whole. The difficulties seem to emanate from the Kansas City offices, according to discussion at the meeting.

The group decided that chairmen of the various panels or a representative of the panels would call upon the Pettis county court and seek assistance in getting Callaway to come to Sedalia and meet with the panel chairmen and the county court to discuss the local situation, and then in turn after their conference meet with all members of the rationing board.

The group went to the court house and conferred with the county court and Judge J. V. Kesterson was very emphatic as to the stand of the court and assured the group the court would insist on a visit by Mr. Callaway.

Japanese Expect Invasion

Concentrate on Amassing Troops; In Doubt of Place Yanks May Choose

By Leonard Millman Associated Press War Editor

Japan's cave-dwelling troops on Okinawa, squeezed into one shrinking 13-square-mile pocket, were written off as lost today by Premier Kantaro Suzuki who indicated military rulers of Nippon are concentrating and massing an army of 2,500,000 to 5,000,000 to repel an invasion "several months" hence.

A banzai charge by 300 screaming Nipponese was annihilated by U. S. Seventh infantrymen crumbling the eastern anchor of the enemy's suicide line, as marines of the Sixth Marine division completed the job of wiping out the Japanese Naha pocket.

Australians reconquering Borneo put one airfield into use, captured a second and drove toward a third. Two other columns pressed toward Brunei town, capital of the invaded area.

In other principal ground engagements Chinese reached the outskirts of Luichow, former U. S. air base in southeast China, and U. S. 37th division infantrymen in the Philippines recaptured American tanks which fell into Japanese hands at Bataan.

Japanese Killed

Between 750,000 and 1,750,000 Japanese were estimated to have been killed in Superfort raids on Tokyo and Yokohama alone, underscoring Japanese worries over increasing U. S. air power.

Thirteen Japanese vessels were wrecked by Allied planes ranging from Malaya to Japan. Tokyo reported 40 Superforts planted mines in waters of western Nippon at midnight. Destroyers of the British East Indies fleet sank two Nipponese vessels off Sumatra.

Tokyo radio again reported Yanks were preparing for a new invasion, but Tokyo couldn't make up its mind whether it would be Japan or the China coast. There appeared to be no doubt in the mind of Premier Admiral Suzuki who said it would take several months for the Allies to prepare an invasion force of 500,000 and by that time Japan would be ready to meet them with five to ten times as many men.

He indicated Japan is already under practical military rule. This week his cabinet received powers to

Need Harvesters, Ration Points And Cars By Thousands

GREAT BEND, Kas., June 14—(P)—Kansas wheat growers are ready to harvest the second largest crop in history, nearly 215,000,000 bushels.

All they need now is: Twenty thousand harvest hands. Two thousand additional combines.

Two thousand additional trucks. A lot of ration points for feeding thousands of transient workers, good eaters all.

Thousands of cars to get the wheat to market. And, some place to put it until it can move to market.

The harvest will be underway along the southern border of the state by June 20, delayed fully a week by abnormally wet weather. In five days it should be in full swing.

E. H. Leker, in charge of the state harvest labor office here, estimated 20,000 harvest hands would be needed—half of them in 37 central Kansas counties.

That in turn brings up another problem—how to feed the hard working newcomers, whose appetites have become legend through the years.

Gov. Andrew Schoppel, receiving reports of farmers' inability to obtain the extra needed rations, has appealed to the OPA for quick help.

At the same time, railroads serving the wheat belt reported an acute labor shortage which may reach a total of 10,000 men when troops movements from the European to the Pacific war fronts get underway.

In addition to the shortage of

Bigger Wheat Overflow in Offing

Little town of Eldorado, Okla., is literally swimming in a flood of wheat this year. The area has the best wheat crop in history and fewest railroad cars for shipping. Wheat is stored everywhere and even piled high on the ground. Donald Cronin, Eldorado farm youth dumps last of a 6,500-bushel load of wheat on the ground. (NEA Photo)

track and shop labor, switchmen and trainmen, John S. Hughes, district manager of the railroad retirement board, said equipment and roadbeds were beginning to show the effects of the great strain of three years of heavy wartime traffic.

With country grain elevators still jammed with last year's bumper crop, and an acute box car shortage, much of the newly harvested wheat will be stored in vacant houses, store buildings, filling stations and a large amount of it just dumped on the ground until storage space or shipping facilities can be provided.

Already, Oklahoma elevators in that state's wheat belt have had to turn away newly harvested grain. In spite of it all, the farmers hope they'll get the wheat in. They whipped the same problem during the First World War. There wasn't machinery to help them back in those days, but the food and manpower problem is greater now, and the transportation system is more acute.

At Washington OPA said any comment on the appeal for extra rations for harvest hands would be left to regional officials.

Deanna Durbin Weds Producer

LAS VEGAS, Nev. June 14—(P)—Film singer Deanna Durbin, carrying pale pink roses, was married in a simple ceremony in the Little Church of the West today to Felix Jackson, her film producer.

The actress, attired in a grey chiffon frock with hat and gloves of pale pink, was attended by her sister, Mrs. Clarence D. Heckman. The Rev. A. C. Melton, pastor of Immanuel Community Church here, officiated.

Deanna's manager, Clarence D. Heckman, was best man. The bride and bridegroom said they would drive to Los Angeles tonight. Miss Durbin, 23, divorced film producer Vaughn Paul last December after nearly five years of marriage. It was the fourth marriage for Jackson, 43, who obtained a final decree from his third wife last January. Deanna and Jackson met in 1937.

The officiating minister, Mr. Melton, is a former Sedalian.

Acquittal For J. D. Bettis

J. D. Bettis, 521 East Tenth street, was found not guilty of a robbery charge by a Pettis county jury which deliberated only 13 minutes to reach the verdict late Wednesday afternoon. Bettis was arrested at 4 a. m. July 16, 1944, by Night Police Chief John O'Brien on complaint of Ernest C. Burch, 1019 East Third street, who said he had been robbed of his billfold containing \$9.50 and papers, and was held suspected of strong arm robbery. On July 17 a charge of first degree robbery was filed against Bettis. He was subsequently released under bond.

He pleaded not guilty on October 20 before C. W. Bente, ex-officio justice of the peace, waived his right to a preliminary hearing, and was bound over to trial in the Pettis county circuit court. The case, originally set for January 17, came up April 18 and was continued to the June term of criminal court.

The trial opened Wednesday morning before Circuit Judge Dimmitt Hoffman and with the close of arguments by Prosecuting Attorney L. J. Harned and Fred F. Wesner, defense counsel, was given to the jury at 4:20 p. m. The verdict of not guilty read by Ray Hatfield, foreman, was returned at 4:33 p. m.

Members of the jury were Hatfield, Walton Berry, James A. DeJarnett, Sam Switzer, Nelson White, Herbert E. Hall, I. D. Elliott, Lyman Keuper, T. B. Ortwig, O. L. Scott, L. L. Miller and Virgil Ragar.

Loss Of 3,604 U. S. Soldiers On Troop Ships

Merchant Ships
Lost 1,544 With
6,066 Casualties

WASHINGTON, June 14—(P)—The army disclosed Wednesday night that 3,604 American soldiers died in the sinking or damage of troopships in 41 months of war against Germany and Italy.

This was a loss of four men for every 10,000 embarked, which the army said was a record nearly twice as good as that for World War I when the rate was 7.2.

There were 4,453,061 troops embarked from the United States, with 1,094 lost on the outbound trips. However, almost every soldier made at least two trips to sea due to inter-theater and intra-theater moves.

Major General C. P. Gross, chief of transportation, attributed the comparatively small loss of life to the "superlative work of the Allied navies," the Allied air forces, the constant vigilance of convoy escorts and to gun crews aboard transports.

Heaviest Toll On Rohna

The greatest loss of American army personnel occurred when the British troopship Rohna was attacked by air on November 26, 1943, off Djidjelli, Algeria, and went down within 30 minutes. Bomb damage, heavy seas and darkness hampered rescue work and 1,015 men, more than half the 1,981 Americans aboard died.

The next greatest toll was in the sinking of the British-controlled Belgian troopship Leopoldville torpedoed off Cherbourg last December 24. Of 2,237 American troops, 764 were lost.

The biggest loss of life on an American ship came on April 20, 1944, when the Liberty ship Paul Hamilton was hit by an aerial torpedo off Algiers, with 504 men and officers lost.

The War Department announcement showed that at least three American ships went down during the big Nazi air attack on shipping in the Italian harbor of Bari.

on the evening of December 2, 1943. The list listed a total of 25 Americans killed in the sinking of three ships.

All the incidents did not involve enemy attack or mines. In at least one case collision was the cause.

A total of 41 ships on which American lives were lost is accounted for in the announcement. All did not sink, some being towed into port.

Merry-Go-Round

by DREW PEARSON

WASHINGTON, June 14—The state department isn't announcing it, but Italian Ambassador Tarchiani has made an unusual move by proposing that Italy declare war against Japan and help supply troops for the Pacific war.

The state department took the matter under advisement and after some deliberation with the British, both governments agreed to approve an Italian declaration of war against Mussolini's old Axis partner Japan.

However, here is the catch. Both the British and American governments refuse to make any commitments to supply shipping or to permit Italian troops to participate in the fighting.

What the Italian government will decide to do under the circumstances remains to be seen.

Maritime Scandals

Senator George Aiken, liberal Vermont Republican, is preparing a hot blast against one of the weak spots in the old Roosevelt administration—the maritime commission. The blast isn't going to help Chairman Emory Land's ambition to be a full admiral.

Senator Aiken will point out that four separate reports by the comptroller-general, Lindsay Warren, describing maritime commission's misuse of public funds, have been nonchalantly pigeon-holed in the senate commerce committee.

Sanctioning Senator Josiah Bailey of that committee was named chairman of a special committee to investigate the maritime commission as long ago as 1938. He has now spent \$17,000 of the \$20,000 allowed for expenses, but has reported exactly nothing to congress.

Senator Aiken will point out that since January of this year, some—but not all—maritime commission contracts have carried these two amazing provisions, certainly not aimed to save money for the taxpayers:

"The contractor shall have no obligation to make any statements or returns of costs to the commission or to make available to the commission any of its books, records or accounts pertaining to the performance of work under the vessels contracts."

"The contractor shall have no

further or other obligations under the vessels contract or on account of the performance of work thereunder, including any obligation to repair, remedy, replace or make good any defects, breakdown or deterioration occurring in any vessel delivered under the vessels contract."

In addition, Aiken will point out that the commission has insured hundreds of vessels for many times their actual value. The Nebraska, for instance, was built in 1912 at a cost of \$713,000 and was estimated five years ago by Admiral Land to be worth \$110,199. On its owners' books it is listed as worth \$5,276, but the maritime commission has insured it for the amazing total of \$1,019,320. The Nevada, built in 1912 for \$616,000 and listed by its owners at \$3,457, has been insured for \$806,800.

Brassy Tariff Lobbying
Brassy ex-Senator Danaher of Connecticut is doing his best to carry out the traditions of his state when it comes to backstage lobbying. He has one of the most unique lobbying rackets Washington has seen since the days of his predecessor, Hiram Bingham.

Danaher, as an ex-Senator, has access to the senate floor. He can walk in, sit down in a senate seat, and whisper with his former colleagues about legislation on which they are voting. This gives him an unique opportunity for lobbying.

He also occupies a unique position otherwise. He is the office manager of the Republican national committee in Washington, in fact the most important member of the GOP organization there, due to the fact that Herbert Brownell is usually in New York. In addition, Danaher operates a Washington law office.

Thus he can go on the senate

WE FLEW Without GUNS

This is a true story of the men who fly the "hump" over the high Himalayas between India and China. Pilots call it the toughest airline route in the world.

FLYING THE BURMA ROAD

IV

IN the summer of 1942 the Japs invaded Burma, cutting off China's vital supply route, the Burma Road. The cutting of the road didn't, perhaps, mean much to most Americans, including myself; but it meant a great deal to people higher up and better informed than most of us then were. It meant, conceivably, the difference between keeping China in the war as an active and valuable ally in our struggle with Japan, and losing her, a starved and worn-out victim, to our common enemy.

China had endured a blockade of its western coast for years, but had been able to do so only because its back door was open. Guns, machinery, trucks, food and munitions had been flowing in a constant—although thin—stream up through Burma from Rangoon on the Bay of Bengal, along the tortuous route of the Burma Road, and thus into the interior of China.

Now, with the Japanese seizure of French Indo-China and the cutting off of the Burma Road at its uppermost point in Burma, that back door was virtually closed. It would have been completely so had it not been for Pan-American Airways and the far-seeing, indomitable Chinese leader, Chiang Kai-shek.

Between these two—Chiang on the one hand and William Bond, Pan-American's representative in Burma and China—the loss of the Burma Road was quickly minimized.

In Upper Assam, almost due north of Rangoon and within an even shorter distance of Calcutta,

floor and put across the ideas of either the Republican national committee or his law clients or both. And he does.

During recent debates on the reciprocal trade agreements act, he has been especially active. Not only has he been on the senate floor, but he has been holding consultations with Congressmen Knutsen of Minnesota, GOP leader who led the fight against the trade agreements act in the house. The two have stood in a senate corridor and operated a little lobby bureau of their own.

Some years ago, the senate passed a resolution severely censuring another Connecticut Republican senator, Hiram Bingham, for taking advantage of his office to do some tariff lobbying. Brazenly he brought the representative of the Connecticut Manufacturers' Association, C. L. Eyanon, into a closed committee meeting which was considering the Smoot-Hawley tariff. Senators in those days did not let Bingham get away with it.

Ex-Governor of Vermont
When President Truman first came into office, he promised Republicans he would appoint men of their selection as minority members of government commissions. This week, he is carrying out that promise by appointing ex-Governor William H. Willis of Vermont as a minority member of the federal communications commission, replacing ex-Governor Norman Case of Rhode Island, also a Republican.

Case, an old friend of FDR when both were governors of their respective states, held office largely on the basis of Roosevelt friendship, not because of support from the Republican party.

Each commission provides for a certain number of Democrats and Republicans. So GOP leaders want their own men in these key jobs, rather than the Republican friends of the White House.

OWI Sabotage
While Republican diehards in congress are doing their best to axe funds for the Office of War Information, Gen. Robert McClure of the psychological warfare board has assigned OWI additional work in the post-war setup for Germany. A recent cable from Gen-

eral McClure reads:

"OWI will be expected to continue to furnish the following: "1. Special newsreel compilations and documentary films, including weekly newsreels or the newsreel material. "2. Magazines and booklets especially prepared for distribution in Germany as approved by U. S. or requested by U. S. (The atrocities pamphlets is an example.) "3. Radio programs from the Voice of America and from such large continental transmitters outside of Germany which comes under U. S. control. The stations in the U. S. zone will carry these as relays. "4. To make available world news for the newspapers which are published in Germany by us. Sometime later, when German papers are licensed, a source of world news will be needed until a German news agency is organized to service them. "5. Photographic exhibits and such other services as may be needed. "The information 'control section, U. S. group control council, the PWD Shaefer are depending on OWI for these U. S. services, and hope that OWI will be able to continue to supply them."

Despite all this, GOP diehards are determined to cut the heart out of OWI.

Looking Backward Forty Years Ago

Bids for the construction of the new home of the Sedalia Journal, on Lamine avenue, just south of the Federal building, were opened last night. All of the bids were higher than the estimated cost, and the contract was not awarded. The plans of the building will be changed somewhat and contractors will be asked to revise their bids.

R. A. Dunlap has leased the vacant room in the Hoffman building, and will in the near future open a book store, with all the latest editions of popular books. He will also handle a complete line of office supplies, etc. The building will be made modern in every respect.

J. L. Ahrens, who has been merchandising in Cole Camp for a number of years, has bought an interest in the Kaiser hotel, and will devote his time to the management of the house.

Irvin Logan, a messenger for the Western Union Telegram Co., had his "bike" badly wrecked last night in a collision with a carriage at Second and Ohio streets. The lad was not injured, however, and is performing his

Emil Jannings, Europe's greatest pre-war film actor, is pictured above as he insisted that the Nazis forced him to act in anti-British films. Brooklyn-born Jannings, taken to Germany as an infant, became a great favorite in German films and returned to America in 1926 to make such films as "The Way of All Flesh" and "The Last Command"

they had established the eastern base of Chiang Kai-shek's newly founded, personally owned, but Pan-American-operated, China National Airways Corporation. From Dinjan, in Assam, China National's air route led directly east over the most difficult flying terrain in the world, across Upper Burma and the Jap-held territory surrounding the captured Burma Road, and terminating 700 miles inside China at Kunming, in Yunnan Province.

The only problem facing Bond and Chiang Kai-shek after they had laid out that route was finding men who would be willing to fly it.

In August, 1942, I decided to approach Pan-American Airways about a job. I knew they had been ferrying planes to England, Russia and China under contract with the government. So I went down to their New York office in the Chrysler Building and talked to Capt. Hal Sweet.

He was much impressed with the flying experience I had had, which included a year ferrying ships for the Air Transport Auxiliary of the R. A. F. in England, but he Pan-American ferrying job was soon to be taken over by the Army.

"You'd probably get a good commission if you applied for one," he said. "The Army needs fellows like you who are already trained in this kind of work."

"You're probably right," I said, "but the Army and I parted company some time ago."

I told him about going to Randolph Field and being washed out as a "dangerous flyer." Before going to Randolph, I told him, I had spent several thousand dollars over a period of years giving myself the training that would make me a top-rank pilot. Later, when

duties as usual today, walking instead of riding.

The W.R.C. will give a social at the Forest park home of Capt. A. W. Wenzinger tomorrow night, and at the same time about 20 couples of the younger society set will enjoy a dance at the Forest park pavilion.

BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys
If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention.

The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints a day.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or painful passages with smarting and burning sometimes shows there's something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

I put in some time with Lockheed in California and with Brewster Aircraft in New York, I had spent most of my earnings on lessons in instrument flying and navigation. Before I left Sweet asked me to call him again in a few days; Pan-American was adding some more planes to the airline it operated for Gen. Chiang Kai-shek between India and China and they were going to need pilots.

"You mean for that trans-Himalaya run?" I asked.

"That's the one," Sweet replied. "It's the toughest air route in the world, but flying it pays real dough. . . ."

THEY were prepared to pay pilots from \$1000 to \$1600 per month, requiring them to work only three weeks out of every four, but pilots still were not swarming in.

No doubt that is why, when Gingiss, Al Privensal, Skippy Lane and I were being interviewed in New York, we heard more about the beautiful Chinese girls who clustered around American flyers in droves, pleading to share their affections, than we did about the hazards of flying freight and personnel across the snow-capped Himalaya mountains.

There were a lot of factors that entered into my decision to fly for C. N. A. C., but I can't deny that the rosy picture painted by Hal Sweet had considerable to do with the outcome. On the other hand, the hazards of the route didn't seem too serious, because I was confident now of my instrument flying; the work was an important contribution to the Allied war effort; it paid better than any other flying job in the world; and it would be far more interesting and provide much more valuable experience than flying in the States. If I could combine all the things I liked—instrument flying, difficult flying, playing an important part in the war, and making money—if I could do all that and have beautiful Chinese girls fighting for my affections at the same time—hell, I had no alternative!

'Reformatory A Disgrace' Says TS Head

Bought Chairs To Keep Guests From Sitting on Floor

JEFFERSON CITY, June 14—(AP)—A Senate committee drew from Le Roy Munyon late yesterday the statement that he had submitted his wife's subsistence bills for payment with his own when she went with him on business trips.

Munyon is superintendent of the Missouri Training School for boys at Booneville. He was Gov. Phil M. Donnelly's hometown minister at Lebanon before the governor appointed him to the job several months ago.

Granting that the expense vouchers he submitted included food and lodging for his wife, Munyon told about a trip to Jefferson City May 28 and 29, when the hotel and food bill for himself and his wife amounted to \$14.37, about an April 7 bill of \$4.70 for dinner and \$4.50 for lodging and about a \$3.30 supper at Columbia on an unspecified date.

He said his wife was with him on all the trips.

"That's a brand new one on me," said Sen. Jasper Smith (R) of Springfield, a member of the Senate Appropriations committee before which Munyon appeared.

"I just wonder by what authority you do that."

"Just Does It"

"I just do it," Munyon replied.

Smith said "It sticks in my craw" to charge the state for the expenses of an official's wife.

Questioned by Sen. Roy D. Miller (R) of Columbia, committee chairman, about a \$25 furniture purchase which was held up by the state purchasing agent, Munyon said the furniture was bought to keep visitors from sitting on the floor.

He also testified that he bought eight dozen goldfish for the reformatory's greenhouse pool for about \$5.

"If you could have seen those boys when I went there," Munyon told the committee, "you would have done the same as I did."

"They were dressed in rags, the toilets were running over and

they were sleeping on the floor. "It was a disgrace to the state of Missouri."

Hart Embarrassed

Sen. H. B. Hart (R) of Versailles, representing the district where the Booneville reformatory is located, said he was embarrassed by the disclosures.

"The institution is in deplorable condition," he declared.

"Whether Mr. Munyon is the man to straighten it out time will tell, but it does need more money."

"I don't want anything this superintendent might be doing to interfere with this overall appropriation for these boys."

Hart said he had been shown pictures of the boys stripping off their clothes in sight of neighbors as they raced toward a swimming pool, but Munyon denied there had been any indecent exposure.

He said the boys were prohibited from swimming in the pond, although a few had sneaked away for unauthorized dips.

The committee deferred action on the institution's request for a \$275,000 appropriation—\$85,000 more than in 1944.

Earlier the Senate passed and sent back to the House a measure establishing a five member children's code commission, appointed by the governor, to study juvenile laws untouched for years. The commission would report back to the governor and the general assembly by the end of 1946.

He expects to spend two days at home in Independence, Mo., the following week—perhaps on June 27 and 28.

Coupled with the fact that Winston Churchill has an election on his hands July 5, all of this rather restricts the time in which a Big Three meeting can be held if it is to fall within the 40-day period Mr. Truman predicted on June 7, which also ends July 5.

A meeting at such a time, taking the president and probably Harry Hopkins away from Washington when the senate is expected to be debating the pact, would indicate supreme confidence of victory in what might well turn out to be quite a fight.

Also Mr. Churchill has already warned his constituents that he might have to be away before the election. Of course, that was before the meeting was definitely arranged.

To repeat, a mere possibility. But isn't it an interesting one? And it certainly would ease the strain on Mr. Truman's date book.

Election in Eire Today

DUBLIN, June 14—(AP)—Eire will choose a new president today to succeed Dr. Douglas Hyde, elected seven years ago without opposition.

Dr. Hyde, 85, declined to seek another term because of his age. He retires next month.

The voting follows a listless campaign. Prime Minister Eamon De Valera urged election of his deputy, Sean T. O'Kelly, as a sign of confidence in his government, which kept Eire neutral in the war.

O'Kelly is opposed by Gen. Sean MacEoin, a leader of the opposition Fine Gael party, and by Dr. Patrick McCartan, Dublin doctor who returned to Eire from New York eight years ago.

Would Limit OPA

WASHINGTON, June 14—(AP)—A sharp fight shaped up in the house today on a Republican move to hold OPA's new lease on life to six months. The administration is asking for at least a year's extension.

In V-5 Program

Raymond Harmon, son of Mr. and Mrs. W. E. Harmon, 210 West Sixth street, was sworn into the V-5 Aviation Cadet Program on June 11, and is awaiting his call to duty which he expects the latter part of this month.

Full Schedule For Truman Until July 15

Plans to Spend Two Days at Home in Independence

By J. M. Roberts, Jr.
AP Foreign Affairs Analyst

President Truman's full schedule and other situations seem to indicate that the Big Three meeting will be held between July 5 and 15, but there is at least one possibility, if only a mere possibility, that it could come earlier.

Truman has a tremendous program before him between now and July 15.

The mere fact that the United Nations pact is expected to come before the senate within that period would seem to be enough since the president could be expected to play an important role then.

But Truman is to confer with Charles De Gaulle next week before leaving for San Francisco where the United Nations conference is expected to close Saturday.

Home in June

He expects to spend two days at home in Independence, Mo., the following week—perhaps on June 27 and 28.

Coupled with the fact that Winston Churchill has an election on his hands July 5, all of this rather restricts the time in which a Big Three meeting can be held if it is to fall within the 40-day period Mr. Truman predicted on June 7, which also ends July 5.

A meeting at such a time, taking the president and probably Harry Hopkins away from Washington when the senate is expected to be debating the pact, would indicate supreme confidence of victory in what might well turn out to be quite a fight.

Also Mr. Churchill has already warned his constituents that he might have to be away before the election. Of course, that was before the meeting was definitely arranged.

To repeat, a mere possibility. But isn't it an interesting one? And it certainly would ease the strain on Mr. Truman's date book.

Judy Garland To Wed Friday

HOLLYWOOD, June 14—(AP)—Judy Garland will be married tomorrow to Vincente Minelli, director of her last three movies.

The ceremony will take place in the Los Angeles home of her mother, Mrs. Ethel Garland. Louis B. Mayer, head of M-G-M studios, will give the 21-year-old singing actress in marriage.

She obtained a final divorce decree last week from Musician David Rose. It will be the first marriage for Minelli, 32, Chicago-born former New York theatrical producer and art director of New York City's radio city music hall.

NLRB Needs More Money

WASHINGTON, June 14—(AP)—The NLRB disclosed today that it had gone broke with two weeks more to go before a new appropriation becomes available. It blamed its plight on a rising number of strike votes.

The Smith-Connally war labor disputes act, requiring that a strike vote be taken within 30 days of notice that a dispute exists, has dipped deep into the National Labor Relation Board's treasury.

While it was making an emergency appeal to congress for permission to transfer about \$80,000 from its printing and binding account to general expenses, it has called a halt on all investigations and new hearings in the field for ten days—June 12 to 22.

Curfew Rings For Horses

CHICAGO, June 14—(AP)—A curfew for some of Chicago's night life dobbins won city council approval yesterday.

An ordinance banning livery stables from renting their horses for riding between 11 p. m. and 4 a. m. was passed. The measure also prohibits the renting of horses and equipment for hayrack parties or other pleasure outings.

Alderman Cowhey, who proposed the ordinance, said many residents in outlying districts have protested the post-midnight horse riders have disturbed their sleep.

Some riding along the bridge paths he said, emulated cowboys, "singing songs and yipping."

Ask Head of OPA District to Visit City

her desk, had been ordered not to return by Frank Rose, acting chief clerk, who came to Sedalia from the Kansas City office.

Judge Kesterson then telephoned downstairs to Mr. Rose who was in the rationing office for Mr. Rose to come to the meeting in the court room.

Mr. Rose was asked by Judge Kesterson if he had ordered Smith Hurt out of the office, and if he had indicated he would throw her out if she came back. Mr. Rose replied, "No, I didn't threaten to throw her out, but I did order her not to come back to the office. I can't make any further comment."

Judge Kesterson then said, "I understand from these gentlemen, and from others that she is a very efficient clerk. What reason can you give for such orders?" and to Mr. Rose said, "I have no comment."

County Cooperated

"I want you to know Mr. Rose," said the judge, "that this county court has cooperated with the Kansas City office as well, if not better than any county in the district. We have worked wonderfully with the Defense Council, which I understand made the appointments here, and I want you to know, and anyone else interested, to know, that this court won't stand for any 'brass hats' from Kansas City or anywhere else, coming down here to Pettis county and kicking our citizens around. We just don't like it... that's all Mr. Rose," Judge Kesterson concluded.

One member of the local group remarked, "Same old story, just a lot of buck passing. It's the same thing that happened when Short was here, nobody has any authority to tell what's going on, yet they represent themselves as representatives from the district office."

Judge Kesterson placed a call to Kansas City for Mr. Callaway, and was informed he had gone to Dallas, to the regional office. He informed the group the court would endeavor to contact Mr. Callaway and ask him to come down.

Primitive Dyaks of Borneo Attack Japs

By James Hutcherson
BRUNEI BAY, Borneo, June 14—(AP)—Primitive Dyaks of Borneo have attacked the Japanese with poison-dart blowers in independent support of the Australian invasion to liberate their home island.

Natives outside Brunei town told how the fierce Dyak brigades donned battle regalia and killed 14 Japanese in the last two days.

They said the Dyaks ambushed the Japanese and killed them with blow darts, swords and spears. They even have crude bayonets mounted on the ends of their blow guns.

Long Distance Fighters 'Got' Nazis

By Robbin Coons

GUAM—(P)—The general who gave the German air force what Goering called "the only surprise we got"—long distance fighter planes—chuckled when he heard of the fat former reichmarshal's astonishment.

The man is 52-year-old Lt. Gen. Barney M. Giles new commanding general of the Army Air Forces, Pacific Ocean Area and deputy commander of the 20th Air Force, successor to Lt. Gen. Millard F. Harmon who was lost on a flight.

Goering was quoted as saying upon his capture after Germany's collapse that "We scarcely believed that America had a fighter plane that could escort bombers from Britain to Germany and back—that whipped us."

Giles told how as deputy commander of the Army Air Forces

under Gen. H. H. Arnold he sponsored the "surprise."

"I simply demanded and got increased ranges from our P-38's, P-47's and P-51's," he recalled.

Had To Save Bombers

"The Germans were knocking down our bombers and we had to stop that. We fooled 'em when we sent out 700 to 1,000 fighters on our bombing missions. Germany had an air force then, but she couldn't afford to send her planes up against that many of ours."

Now the tall, genial Texan from Mineola brings his talents to the war against Japan, and a background of army aviation dating back to 1917, when he was a private in the Signal Corps' aviation section.

A great believer in keeping fit, he had plans afoot for volleyball, horseshoe pitching grounds and fishing boats for the personnel soon after his arrival.

He wants to set up a rest and recreation center for Superfortress crews between the long and wearisome missions to Japan, and he wants to set a definite number of missions to qualify men for home leaves, such as in the European war.

Must Clear Out Japanese

Giles hopes to accomplish the latter as soon as Flying Fortress and Liberator crews can transfer to the Pacific after a brief training in Superfortress flying in the States.

"It shouldn't take long," he says. "In the B-29, piloting and navigational problems are the same as in the others and the bomb sight is the same."

Giles flew the first Flying Fortress delivered to the army when a deputy commander of

Lincoln Sgt. Wins Award

WITH THE FIFTH ARMY, Italy—Staff Sergeant Elton L. Means, 19, of Lincoln, Mo., recently was awarded the Bronze Star Medal for heroic achievement in action on the Fifth Army front during the Italian campaign.

He is a squad leader with the 362nd Infantry Regiment, 91st "Powder River" Division.

While leading his squad in an attack Means was subjected to heavy machinegun and mortar fire. Crawling forward despite this fire, he engaged one of the enemy machineguns, and silenced it with accurate rifle fire.

In the evening, Means reorganized his squad and led them in a raid on enemy positions. Striking swiftly, he and his men killed six of the enemy and captured five, thus opening up routes of advance for his company to continue the attack, the citation stated.

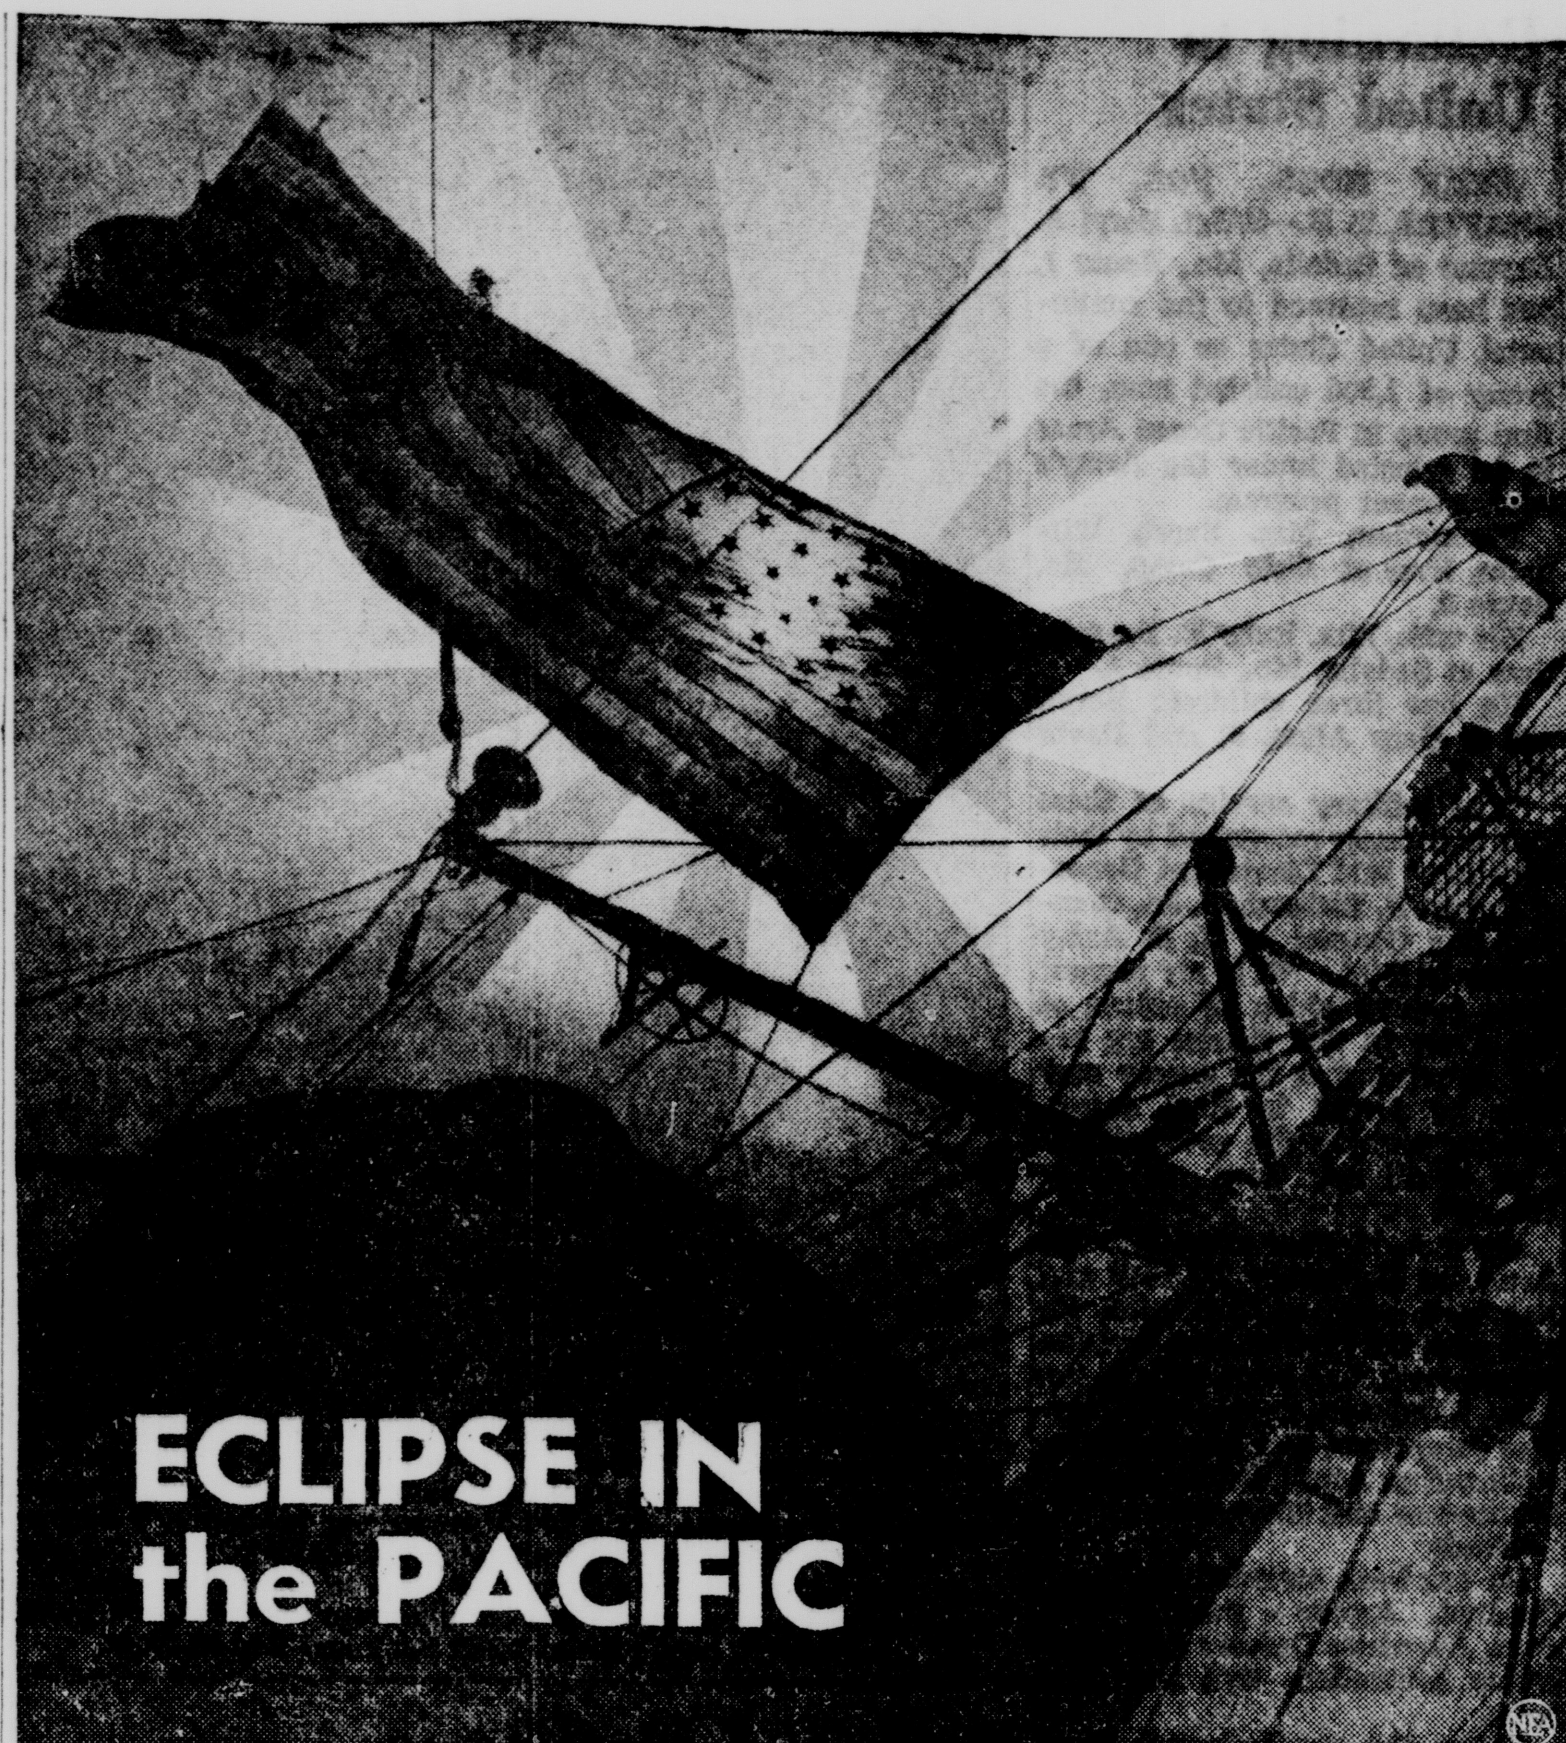

Means was a student before entering service in July, 1943. His father, Mr. William Z. Means, lives on Route 1, Lincoln.

Sedalian is Paratrooper

Pvt. Kenneth D. Williams, son of Mrs. Maude W. Steeples, of 304 West Seventh street, Sedalia, Mo., has won the right to wear the "Boots and Wings" of the United States Army Paratroopers. He has completed four weeks of jump training at Fort Benning, Ga., during which time he made five jumps, the last a tactical jump at night involving a combat problem on landing.

Jumping at the Parachute school has steadily developed to a recognized war science. American paratroopers have been recognized throughout the world for their meritorious actions against the enemy.

In addition to producing jumpers parachute specialist training is given to qualified men in communications, demolition, riggers and parachute maintenance, vital skills for airborne troops.

Sedalian is Paratrooper

Pvt. Kenneth D. Williams, son of Mrs. Maude W. Steeples, of 304 West Seventh street, Sedalia, Mo., has won the right to wear the "Boots and Wings" of the United States Army Paratroopers. He has completed four weeks of jump training at Fort Benning, Ga., during which time he made five jumps, the last a tactical jump at night involving a combat problem on landing.

Jumping at the Parachute school has steadily developed to a recognized war science. American paratroopers have been recognized throughout the world for their meritorious actions against the enemy.

In addition to producing jumpers parachute specialist training is given to qualified men in communications, demolition, riggers and parachute maintenance, vital skills for airborne troops.

Returning to United States

ARMY HDQS., POA, FT. SHAFTER, T. H.—Sgt. Beryl A. Beymer of Sedalia, Mo., Route 1, has been returned to the continental United States as one of a group of 1,300 enlisted men, the first group in Pacific Ocean Areas to be selected under the Army's readjustment program.

His mother, Mrs. Sarah Williams, lives at Cole Camp, Mo., Route 2.
His wife, Mrs. Ruby R. Beymer, lives at Sedalia, Mo., Route 1.
He has three children: Beryl, age 8; Gary Allen, 6; and David Ellis, 3.

"The military service of these men is fittingly recognized by their selection," said Lieutenant General Robert R. Richardson, Jr., Commanding General of U. S. Army Forces in POA. "It is my earnest hope, toward which all efforts of the Army in this theater are being directed, that the enemy may soon be forced to final defeat, making possible the eventual return of all our men to their homes."

Beryl A. Beymer came into the Army on November 11, 1940 and had been overseas 26 months. He was with the 7th Infantry Division (Hourglass), had been through the Attu, Kwajalein, Leyte, and Okinawa campaigns, and has been stationed on Attu, Oahu, Hawaii, Philippines and Okinawa.

Awards
He has been awarded the Good Conduct, Asiatic-Pacific, w/4 stars, American Defense and Philippine Liberation, w/2 star ribbons.

Under the readjustment point system, his score was 130.

In civilian life, he was a truck driver and was employed by self. He was a graduate of Sedalia public schools.

Playtogs which wrap and tie youngsters up in style, but open out for as easy laundering as papa's handkerchiefs, are washday boons mothers will welcome. The war-born answer to summer's heaped-up laundry pile shown above are playtogs adaptations of the popular Dido pajama. Made all in one piece of Dan River pink and white striped cotton, they slip over a youngster's head, are pulled through the legs, yanked up in back and tied in front.

Helped Out Air Assaults

1ST BASE AIR DEPOT, WAR-RINGTON, England — V-E day found Sgt. Dan Duffer of Pocatello, Idaho, on the job, helping to ready more combat planes and equipment for immediate action where they might be needed.

Sgt. Duffer, son of W. E. Duffer, Knob Noster, Mo., and husband of Helen L. Duffer, Pocatello, Idaho, is one of the crack Air Service Command team who pitched in to back the air assaults that helped knock Germany out of the war.

Commending their battle-backing efforts, Brigadier General

Morris Berman, Commanding General of the Base Air Depot Area, Air Service Command, declared: "These soldiers of the Base Aid Depot have, since their work began, dispatched 415,000 tons of air corps supplies, assembled and modified 12,000 combat planes, and repaired or overhauled more than 30,000 aircraft engines."

"Every soldier, whatever his job, contributed materially to the magnificent, final result. I commend them, and I know that whatever their next task, they will fulfill it with credit to themselves and their country."

Sgt. Duffer has been overseas since May 27, 1943 and joined the army in July 1942. He was employed by the Union Pacific Railroad, Pocatello, Idaho.

PARAGRAPHS OF INTEREST
About
Pettis County's Historical Society and MUSEUM

"If a horse has a headache, just bore a hole in its head."
Thusly does a "Farmers' or Veterinarians' Guide," printed in England in 1778, now on display among old books in the Pettis County Historical Society museum, dispose in simple manner of curing cephalalgia as afflicts the horse. The how and where of the process is left to the reader.

The book, neatly bound and printed in old English type, bears a hand-drawn coat of arms on its flyleaf.
Among other choice morsels of advice which the modern reader peruses with dubious expression is this: "It is sometimes advisable to give a horse a quart of rum; however, the owner is admonished to be present when the remedy is administered, lest the stable boy decided he needs the medicine worse than the animal."
And in the back of the book appears an advertisement which is unusual, to say the least. The author of the publication, a Mr. Maximilian, advises one and all to read his works on "Why The Second Coming of Christ is Immediately to be Expected."

Progressing to the Adco, Inc., case, one views an old surgeon's kit loaned by Dr. E. C. Snively.

Gazing upon these comparatively crude implements of a bygone age, one is swept with a sense of gratitude that anesthetics have been developed to their present state.

An onlooker recalls a case of a doctor during the Civil War: During combat, the doctor's leg was mangled by a cannon ball. Knowing that amputation was necessary and that he was the only surgeon within miles, the victim resorted to the only solution to the problem. Calmly seating himself, he called for his kit and with the aid of two soldiers amputated the leg. There was no anesthetic and probably very meagre precautions against infection were taken—yet he lived to be one of Henry county's leading doctors for years.

Old Coins
Mute reminders of past glory are the ancient coins in one of the M. O. P. cases. The fact that the coins, with dim lettering in some foreign language, were taken from a tomb somewhere in the birth land of civilization between Rome and the Nile Valley, increases interest.

One marvels at the indestructibility of the copper and brass disks and becomes aware of interesting sidelights. Disproving the accepted statement, "You can't take it with you" (as they were dug from a tomb), they make their reappearance in circulation to accentuate the ephemeral quality of wealth.

The original owner will doubtless be disappointed to discover he must make a penniless entry into his particular paradise, despite his preparation for the contrary, when he misses the coins now on display in the historical society museum.

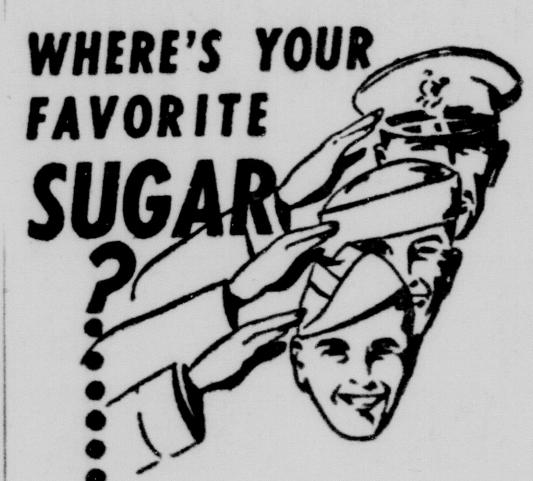

Gay Deceiver

When it appeared the attractive charmer (top) might win a Queen-of-the-Ball contest at Pennsylvania State College off came "her" wig to reveal Robert S. McClintock, Jr. (bottom) of Marianna, Ark., Army Specialized Training Corps student. But before the deception was revealed, "she" danced with the colonel and generally was the belle of the ball. Barracks buddies entered McClintock's photo as a

ST. LOUIS, Mo., June 14—St. Louis soon is to have a vastly improved railroad service to Texas and the Southwest, according to an announcement made at Denison, Texas, by Matthew S. Sloan, chairman of the board and president of the Missouri-Kansas-Texas Lines. The announcement was made in connection with a diamond anniversary celebration of the founding of the Katy Railroad. "I am glad to tell you," said Mr. Sloan, "that the Katy is now working out plans with the Frisco for the purchase of three streamlined Texas Special trains for our joint operation between St. Louis and Katy-served cities in Texas and the Southwest. These trains will be the most modern design, pulled by high powered diesel locomotives and will cost in the neighborhood of one and a half million dollars each.

"There will be twelve cars in each train, consisting of lounge, pullman, diner, chair, buffet and mail and baggage cars. With our excellent rebuilt railroad plant, we expect to be able to clip off up to eight hours from our schedule with these trains."

Dad has favorite dishes
And Father's Day is an excellent time to serve them... to prove all over again that you love him. So forget the calories and vitamins for a day and give him those things he likes... just because they taste so good, such as—

For breakfast—CORN PANCAKES
3/4 cup all-purpose flour
1 tsp. salt
1/2 cup corn meal
2 eggs
1 1/2 tps. baking powder
1/2 cup soda
2 tps. sugar
1 tsp. salt
2 eggs
2 tps. milk
2 tps. melted shortening or margarine

Sift flour, measure, and sift again with corn meal, baking powder, soda, sugar, and salt. Beat egg yolks, add milk and combine with dry ingredients, beating until smooth. Add melted butter or margarine and fold in stiffly beaten egg whites. Drop by tablespoonfuls on moderately hot, lightly-greased griddle or heavy frying pan. Turn cakes when bubbles form on top surface. Bake until golden brown. Serve with equal amounts of melted butter or margarine and heated syrup. Makes 10 to 12 medium-size cakes.

For his favorite dinner—Chicken Fricassee or Beef Stew with Dumplings.

DUMPLING QUICKIE
2 cups biscuit mix 1 cup milk
Place mix in bowl; add milk all at once; stir only until all of the flour is dampened. Drop dumplings by tablespoonfuls on gently boiling stew or liquid in large kettle with tight-fitting cover; cover; steam 15 minutes or until done, without removing cover. Makes 12 medium-size dumplings.

HONESTLY, I DON'T SEE HOW YOU KEEP YOUR DISHCLOTH SO CLEAN-LOOKING!
IT'S EASY, I USE CLOROX TO BLEACH IT, AND MAKE IT SANITARY, TOO!

WOMEN marvel at how clean-looking and fresh-smelling Clorox makes even the mustiest, grimmest dishcloths. But more important, Clorox makes them hygienically clean... an added safeguard to health. Clorox has intensified germicidal action; it disinfects, deodorizes, removes stains. Use Clorox regularly in routine cleansing of tile, enamel, porcelain, linoleum and wood surfaces for a safer, brighter home.

Bathroom Sanitation! Don't be satisfied simply because your bathroom "looks" clean. Make it Clorox-Clean... sanitary. Clorox combats germ dangers... helps avoid risk of infection.

Here is proof of tire superiority. For taxis punish tires
with long, hard, stop and start driving over all kinds
of roads, in all kinds of weather... and still Goodyear
continues to deliver amazing mileage rivaling
the records of average pre-war tires. So, if you're
lucky enough to have a certificate, be shrewd enough
to get a Goodyear.

Greenberg May Rejoin The Tigers

Will be First Test of
Big Name Major
Leaguer Attempt-
ing a Comeback

By Jack Hand
Associated Press Writer

If Capt. Hank Greenberg is now
headed toward the Detroit outfield
and if Rudy York is going to start
hitting, it's time to rate Steve
O'Neill's Tigers the team to beat
in the American league.

Some already tab the Bengals
as the class of the junior circuit
but most fans have been reluctant
to go all out for a club that leans
so heavily on its slim pitching
staff for success.

Although the Tigers lead the
second-place New York Yankees
by a full game today and have
won seven of their last eight, their
over-all record has been spotty.

The case of Greenberg is not
clear although an army spokesman
at Fort Dix, N. J., said yesterday
the former Tiger may be out of
service by tomorrow night. Nei-
ther he nor the Detroit club have
indicated an early return to the
lineup.

Greenberg, 34, has been in the
army since May 7, 1941 with the
exception of an eight-week period
in late 1941 and early 1942 when
he was discharged as overage but
later re-inducted. In his last full
season with the Bengals he hit .340
and bashed 41 homers. His re-
turn would be the first test of a
"Big Name" major leaguer at-
tempting to pick up where he left
off in his baseball career.

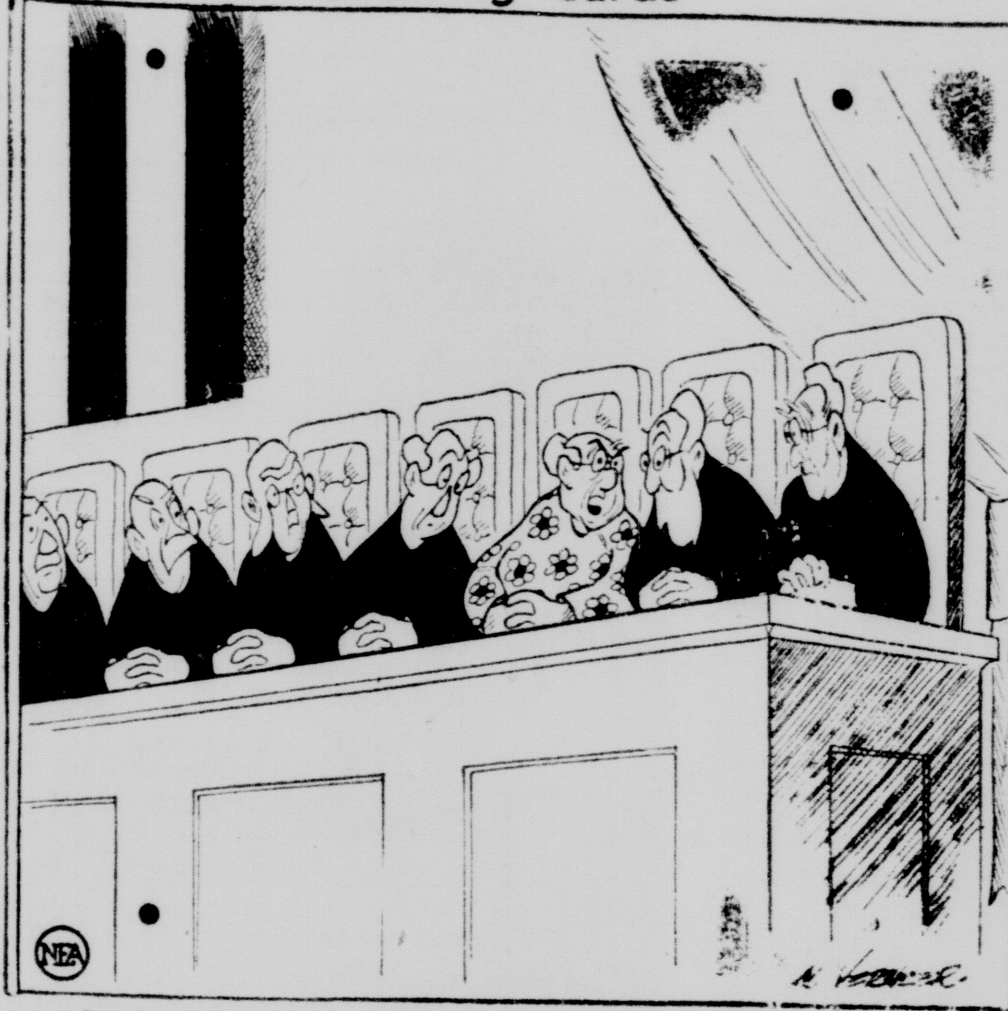

York showed encouraging signs
of ending his season-long slump
yesterday with three hits for a
perfect day against St. Louis, con-
tributing a three-run homer, two
singles and four runs-batted-in to
the leaders' 6-4 victory. It was
only his third round tripper of the
season and his average still was a
trifling .259. Starter Joe Orrell
was the victor over Nelson Pot-
ter, but neither was around at the
finish.

Chicago made seven hits count
for a 5-3 decision over Cleveland,
although the Tribe backed up
Steve Gromek with a 14-blow at-
tack on Joe Haynes and two suc-
cessors. Gromek's five-game win
streak was snapped on a four-run
fourth inning spurt. The Yan-
kees and Washington were not
scheduled and a Boston at Phila-
delphia night game was washed out.

Brooklyn took another fall out
of the New York Giants, 3-2, pull-
ing into a second place tie with
Pittsburgh, only a half game off
the pace. Hal Gregg did a five-
hit job on the leaders to outpoint
Harry Feldman. Pittsburgh and
Chicago were idle yesterday but
the Pirates can take over first
place by winning two from Chica-
go today. A Bucco split and a
Dodger triumph would put Leo
Durocher's crew on top.

Two streaks ended as the Phil-
lies went 15 innings to a 5-4 de-
cision that snapped their record-
breaking losing streak at 16 and
the Boston Braves' victory string
at nine. Mort Cooper had coped
his sixth in a row in the op-

ener of the doubleheader with an
8-3 triumph for the Hub.

Veteran Joe Bowman continued
to pitch like a champ for Cincin-
nati after his discard by the Bos-
ton Red Sox, notching his third
successive decision for the Reds
by a 2-1 margin over the St. Louis
Cards who hoisted their world
series pennant.

Wright insisted on playing to a
finish and Cincinnati went down,
8-7, in the eleventh.

More Business, Less Manpower On Railroads

Rail Traffic Is Moving Toward the West

Tom Keating, manager of the local office of the Railroad Retirement board advises that during the next few months, when other sections of the country are beginning to think in terms of cutbacks and easing of manpower shortages the railroads in this region, comprising the states of Kansas, Missouri, Oklahoma, Arkansas, and Nebraska, will face a heavy increase in their work load and an increasingly acute shortage of skilled and unskilled manpower to operate the railroads in the West.

In view of this situation, and in view of the vital role which the railroads in this territory and other western states of necessity must play in supplying the Pacific war theater and in the redeployment of troops and material from the European theater to the Pacific war theater, he calls attention at this time to some of the following factors which have had or will have an important bearing on the railroad manpower situation in the coming months.

1. Beginning with V-E Day, a reversal in movement of rail traffic from Atlantic ports to Pacific ports began to take place. Before V-E Day, the bulk of the railway war traffic moved toward the Atlantic seaboard. Since V-E Day, the bulk of war-bound rail traffic is moving toward the West Coast and the Pacific theater of war.

2. While the railroad network in the East consists of many closely integrated lines converging upon a number of large ports, a glance at any railroad map will reveal that the railroad system in the West consists in the main of seven major lines converging upon three major Pacific ports. The result is that heavily increasing west-bound traffic will be "bottle-necked" through a few roads leading to a few ports.

This Region Involved
3. Of the seven major railroad lines traversing the western half of the United States all but two move through this region, comprising the five Mid-Western states mentioned above. The railroads running through this territory, therefore, will have to bear an exceptionally heavy burden of west-bound traffic. This burden, of necessity, in the final analysis must be translated in terms of expanded railroad manpower, since no expansion can be made of rail facilities, and since expanded equipment facilities will depend upon manpower to make them effective in the movement of increased freight and passenger traffic.

4. The expansion of west-bound war traffic, it so happens, will take place more or less concurrently with a heavy seasonal increase in traffic, due to movement of the current year's grain harvest. This grain movement is centered in the same states and on the same railroads which must carry war-bound increases in traffic. In addition to this double expansion of traffic during the next few months, the same railroads will also have to handle another heavy seasonal increase in traffic, namely, the west-to-east movement of fruits and vegetables from the Pacific Coast area to the Eastern half of the country.

Need More Workers
5. This heavy general increase in traffic over the railroads of the five-state Mid-Western area comes at a time when the roadbeds and equipment of the railroads involved have already been subjected to the effects of more than three years of heavy wartime traffic, and at a time when the experienced railroad personnel has been

depleted and diluted to the danger point.

6. The increased needs for railroad labor cannot be met by further increases in the number of working hours of operating and shop forces have already reached such high averages that further increases would lead to increased

time lost through illness and absenteeism.

Shirley Out Of High School

LOS ANGELES, June 14—(AP)—Forty-two white-gowned young misses sauntered sedately down a flower-banked lane, among them Shirley Temple.

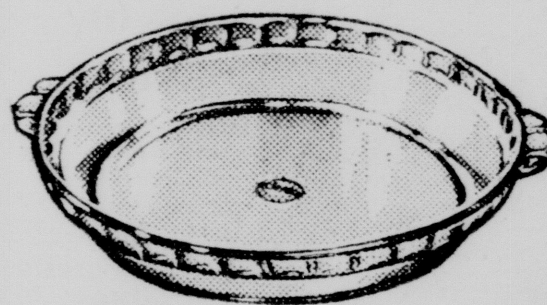

Miss Carol Mills, principal of the exclusive Westlake school for girls, handed out the diplomas. "Thank you," said Shirley, who

carried a cluster of American Beauty roses and gardenias.

Thus a movie star, who began her career at 3½, was graduated from high school yesterday. Four hundred parents and friends applauded the ceremonies.

Shirley, just turned 17, said she plans to go to college—probably the University of California at Los Angeles "because it's closer to home."

Fire Raid By B-29's On Osaka

General Arnold States The Bomb Tonnage On Japs Be Doubled

WASHINGTON, June 14.—(P)—A daylight fire raid was made by B-29s bombers today (June 15 Japanese time) on the Osaka area, the war department announced tonight.

A very large task force of the Superforts, flying from bases in the Marianas, staged the raid, with P-51 Mustangs from Iwo Jima providing fighter escort.

Both urban Osaka, a city of normally some 3,000,000 population, and adjoining Amagasaki, were attacked, the 20th airforce headquarters announced.

Double Tonnage

By RICHARD O'MALLEY
GUAM, Friday, June 15.—(P)—American planes will begin hitting Japan with bombs at the rate of 2,000,000 tons a year by July 1, Gen. H. H. Arnold announced today in a dramatic press conference at the very moment 520 Superfortresses were dumping a 3,000-ton load on the great industrial city of Osaka.

Arnold, chief of the U. S. army air forces, personally announced the Osaka raid in disclosing his program for "complete and utter destruction" of the enemy homeland by air. He is here on a visit to the 21st bomber command, headquarters of the B-29 Superfortresses.

The planned 2,000,000 annual bomb tonnage would average 5,480 tons each day.

"We are going to more than double the tonnage we are going to drop on Japan, starting July 1," Arnold added at a press conference.

"Starting July 1, we are going to drop 1,700,000 tons and forces of Gen. George C. Kenney (commander of the far eastern air forces) 300,000 tons.

"If that is what Japan wants, by God that is what she is going to get."

"You know what will be left of the area from Tokyo to Nagasaki, which is all of Japan that counts industrially."

He disclosed that the May bomb tonnage on Japan was 24,000 and dwelt on the reason for the "complete and utter destruction" program.

"Japan has a thousand small targets in backyard workshops and homes," he explained.

"Suicide planes are cheap and can be made in a back yard. That is why we went into the destruction program to defeat Japan. It is necessary to destroy five key cities (Tokyo, Nagoya, Yokohama, Kobe and Osaka). It is going to be a terrible place to live in."

More Claims On Estate Made

KANSAS CITY, June 14.—(P)—Three more claims totaling \$20,188 were filed today against the estate of the late Thomas J. Pendergast, former Kansas City Democratic leader.

Dan M. Nee, U. S. Collector of Internal Revenue, filed a claim for \$2,188 which he said represented unpaid 1943 individual income tax on the back of the claim is a waiver of notice on consent for its allowance, signed by Mrs. Carolyn Elizabeth Pendergast, widow and executrix of the estate.

A second claim was by L. C. Johnson, former director of the fire department, and Thomas B. Bash, former sheriff, for a \$15,000 note they said was executed to them by Pendergast Dec. 21, 1933, and past due since July 1, 1939, with interest at six per cent.

The third, for \$3,000, was by Charles C. Ross, son of the late Mike Ross, business partner of Pendergast. It was for the unpaid balance of a note for \$4,000 executed Jan. 15, 1940.

Five Of Plane Ferrying Group Killed

MEMPHIS, June 14.—(P)—The fourth ferrying group announced today that five members of its personnel were killed in a plane crash at Natal, Brazil, June 8.

Killed included: Flight Officer Theodore J. Flocks, co-pilot, Perry Ark. Staff Sgt. Charles F. Martin, aerial engineer, Prairie Home, Mo.

The Weather

Mostly cloudy with occasional showers and thunderstorms Friday; slightly cooler in northwest and extreme north Friday; high-est temperatures 70 extreme north to 75 to 80 south.

M-K-T Head Dies

Matthew S. Sloan, chairman and president of railroad passes away unexpectedly in New York City.

M. S. Sloan Dies After A Heart Attack

President Of M-K-T Been A Leading Financial Figure

NEW YORK, June 14.—(P)—Matthew S. Sloan, 63, president and chairman of the board of the Missouri-Kansas-Texas railroad, and one of the nation's leading financial figures, died unexpectedly today in a New York hospital.

Death was attributed to a heart attack. He entered the hospital May 31.

A native of Mobile, Ala., Sloan spent the greater part of his career as an executive in the Electric Light & Power industry with which he grew up. He was born just a year before Edison opened the world's first central power station in New York City.

Former Head Of Big Companies
At one time, Sloan headed five companies which together comprised the largest electric light and power system in the world, employing 30,000 workers and serving a population of 6,443,000 in an area of nearly 700 square miles.

These were Brooklyn Edison Company, the New York Edison Company, The United Electric Light & Power Company, The New York and Queens Electric Light & Power Company, and The Yonkers Electric Light and Power Company.

It was not until the early 30's that Sloan left the light and power field to become head of M-K-T and its affiliated roads.

He also was a director of many business enterprises, including Continental Can Co., Inc.; Overseas Securities Co., Inc.; Globe & Rutgers Fire Insurance Co., Galveston Houston & Henderson railroad, Chrysler Corp., and the American Surety Company of New York.

Festivities Called Off

DENISON, Tex., June 14.—(P)—Denison, built by the Missouri, Kansas and Texas railroad and this week celebrating the 75th anniversary of its birth with a Katy week, today called off festivities when it learned by telegram from St. Louis Katy offices that Matthew S. Sloan, president of the lines, had dropped dead there of a heart attack.

The telegram, said the Denison Herald, was received by Katy officials here.

It said funeral services would be held in Alabama.

Sloan had been in Denison earlier this week, participating in the celebration.

Mr. Sloan was in Sedalia about two months ago on a regular inspection trip, F. G. Buchanan, general agent of the Missouri-Kansas-Texas railroad in Sedalia, recalled Thursday night, as he expressed dismay at the sudden passing of the railroad president.

Continue Fight For Fuehrer

WIESBADEN, Germany, June 14.—(P)—Typewritten sheets calling on the Hitler youth to continue to fight have appeared on the walls of buildings in the U. S. Fifth infantry division sector near Rottenburg.

"Long live the fuhrer" and "Young Nazis Awaken," the placards said.

Twelfth army group headquarters also reported the death of three American enlisted men of the 100th infantry division south of Halzhausen when their jeep ran into an extensive minefield from which the warning tape and markers had been removed surreptitiously by German civilians. An investigation is being made.

Program For Flag Day Is Given At Park

G. W. Diemer In Address At Elks Observance

Emphasizing freedom, justice and equality as the symbol of the flag, George W. Diemer, president of the Central Missouri State Teachers' College, Warrensburg, addressed over one hundred and fifty people at a flag day service held at Liberty park Thursday evening.

Talking on the subject "One Increasing Purpose," Mr. Diemer pointed out that to have an effective citizenship in the future people must be educated and informed for democracy.

In expressing thoughts about the war and its problems he said very few of the United States' problems will end with the end of the war. There will be many complications and problems such as the race problem and graft he said.

Another idea he left with the audience was one he had learned from a young Navy Lieutenant. It was that the world will not be able to undertake another war because of modern scientific progress, referring to rocket planes alone.

Sponsoring this annual Flag Day service is the B. P. O. Elks Lodge No. 125, assisted by other civic and patriotic organizations.

The Program
The program which was given at the band shell at Liberty park was as follows:

To the colors and massing of colors—members of band.
Star Spangled Banner—Boonville high school band, direction of O. O. Humo.

Invocation—Father W. P. Stack of Sacred Heart parish.

Boonville Band
Selection—Boonville high school band.

History of the Flag—O. B. Poundstone, past exalted ruler, B.P.O. Elks.

Selection—Boonville high school band.

Introduction—L. H. Reed, exalted ruler, B.P.O. Elks.

"One Increasing Purpose"—George W. Diemer, president Central Missouri State Teachers' college, Warrensburg.

Selection—Boonville high school band.

Benediction—The Rev. Fordyce E. Eastburn, rector of Calvary Episcopal church.

The committee in charge of the Flag Day program was composed of Carl F. Urban, chairman, Carl Schrader, W. M. Ilgenfritz, Sam Higleyman, J. W. Reid, J. F. Downs and A. A. Studebaker.

Britain In An Offer To India

LONDON, June 15.—(P)—The British government today offered India a revamped executive council with only two posts held by Britons—a move which a British white paper called a "genuine step forward xxx toward Indian self-government"—and renewed its 1942 proposal for postwar dominion status for the oriental keystone of the empire.

Management of foreign affairs, now controlled by Viceroy Lord Wavell, would pass into Indian hands as well as the finance and home departments, now held by Britons. Indians already outnumber Britons on the council by 10 to four.

The victory is bound by the council's advice in most matters, but may overrule its recommendations if they collide with his own views on what is essential for the safety or tranquility of the country.

While L. S. Amery, secretary of state for India, read the white paper to parliament, Wavell in a New Delhi broadcast told Indians that eight members of the congress party's working committee had been released from jail and said he intended to invite Indian leaders to confer with him on formation of a new executive council "more representative or organized political opinion."

The white paper said Britain's main position remained the same—that the "working out of India's constitutional system is a task which can only be carried through by the Indian people themselves," and Amery concluded by saying "We cannot hand India over to anarchy or civil war."

Sir Stafford Cripps, who carried the British plan for dominion status to India three years ago, said he "wholeheartedly welcomed" the plan, and added that increasing the number of Indians on the council "must bring about complete alteration in the balance of power which has hitherto existed between the British and the Indians."

WASHINGTON, June 14.—(P)—Solid Fuels Administrator Ickes today returned to their private owners 260 bituminous coal mines which had been taken over by the government when they were strikebound by wage disputes.

SAAF Band Be In Big Parade

KANSAS CITY, June 14.—(P)—A mounted color guard from Ft. Riley and at least six military bands were promised today for Kansas City's big parade and reception for Gen. Dwight D. Eisenhower June 21.

Lt. Col. J. A. Chase, representing the Seventh Service Command, said musical organizations obtained included:

The WAC band from Ft. Des Moines; the O'Reilly General Hospital band from Springfield, Mo.; the Olathe Naval Air Station Band; the Army Air Force Band from Sedalia, Mo., and the 3rd Missouri Infantry Regimental band and the 443rd Army Service Force band from Jefferson Barracks, Mo.

Arrangements also have been made for a 100-piece Great Lakes Naval Training Station band from Chicago, providing transportation plans can be completed with the Office of Defense Transportation.

Welcome Gen. 'Ike' In Paris

Over Million Jam Streets In Greeting Him

By JAMES M. LONG
PARIS, June 14.—(P)—General Eisenhower received the official welcome of Paris today and told those who had a taste for vengeance that "Berlin is destroyed."

More than 1,000,000 cheering Parisians jammed the streets during which Eisenhower rode in triumph two days after becoming a freeman of the city of London.

He spoke in English—with a middle western accent as broad as his smile—in Hotel De Ville, the Paris city hall where he rode from the Arc De Triomphe.

Along the route cheering men, women and children hailed him as their liberator.

Only a few of those who packed into the lavishly decorated hotel De Ville could understand his words exactly but they made out enough to burst into applause when he declared grimly:

"Paris has suffered. We understand that. I have something to tell you if you, like Americans, have a touch of vengeance in your hearts: Berlin is destroyed."

There was even louder applause later when he had finished and his brief speech was repeated in French.

The general told the crowd of America's historic bonds with the French and said "today you have shown how completely that affection is mutual."

"One of Hitler's miscalculations which led to the destruction of Germany," he told the French, "was that he did not defeat France when he thought that he had."

Praising the contribution of resistance forces, he said "You fought with guile, with the pen, with laughter and ridicule—and with the dagger."

The supreme Allied commander was made a "Fellow of the Liberation" by Gen. De Gaulle who presented him with the bronze medal with a deep green ribbon in an elaborate ceremony before the tomb of France's Unknown Soldier.

New Hazards For the Enemy

SAN FRANCISCO, June 14.—(P)—Mine-laying superforts flying midnight sorties along the west coast of Honshu, main island of Japan, laid new hazards for Japanese shipping, Tokyo reported today.

Ten B-29s planted mines in the Sea of Japan off the coast of Nii Gata prefecture, 160 miles northwest of Tokyo. Ten others mined the Suwo sea of the southwestern end of Honshu and at the western end of the inland sea.

Home Town and Kansas City Plan to Entertain President

INDEPENDENCE, Mo., June 14.—(P)—Harry S. Truman will be home this month for the first time since he became president.

The president plans a two-day stay here on his return to Washington from the United Nations conference in San Francisco. The dates, probably June 27 and 28, remain indefinite because of the unpredictable termination of the conference.

The highlight of his visit will be a program in Kansas City's Municipal Auditorium on his second night home. There the president will make a brief talk after receiving an honorary degree (Doctor of Laws) from the University of Kansas City.

On his first night home he will make another short talk in the Latter Day Saints church in Independence.

Since the president has asked that the homecoming celebration be modest, no parade will be held. Tentative plans call for the president to spend his first day at home in Independence, his second in Kansas City where he maintains an office. He has expressed a desire to friends here that his visit be informal.

Will Dine With Mayor
His first night home he is to dine with former fellow officers of the old 129th Field Artillery Regiment at the home of Mayor Roger Sermon in Independence. Then the group will go to the Latter Day Saints church for a band concert. After a brief talk the president will greet old friends and shake hands with the crowd.

The following day he will visit his office in the Federal building at Kansas City, attend a noon convocation at the University of Kansas City, and at night be a guest at a dinner given by the Merchants Association. His auditorium appearance will follow the dinner.

Charles G. Ross, White House press secretary and former school mate of the chief executive, will accompany Mr. Truman.

When the president arrives he will go first to his home here where Mrs. Truman and their daughter, Miss Margaret Truman, are arranging a homecoming of (Please turn to Page 4, Column 6)

Award Given To Plastics Engineer

NEW YORK, June 14.—(P)—William I. Beach, 39, chief plastics engineer for North American Aviation, Inc., received an award for distinguished contribution to the plastics industry tonight.

A former resident of Marceline, Mo., Beach was presented the gold John Wesley Hyatt medal and \$1,000 for his work in developing a process for plastic forming competitive with metal forming techniques.

The process, now widely used, has saved strategic materials during the war and reduced the weight of airplanes. On the B-25 Mitchell bomber alone, 120 man hours per plane were saved by use of Batch's development, North American officials reported.

Patton Return To Europe

Third And Seventh Armies There For Occupation

WASHINGTON, June 14.—(P)—Gen. George S. Patton is going back to Europe and an occupation army assignment instead of heading forth for Tokyo.

Secretary of War Stimson announced the plan for the two-gun-toting general today in designating his Third army, along with the Seventh, for the job of occupying Germany.

Patton, tank expert and exponent of daring tactics, has been expressing a hope for a chance at the Japanese ever since he came home. As recently as yesterday, after conferences with Gen. George C. Marshall, chief of staff, Secretary Stimson and President Truman, Patton said he "had hopes" of getting to the Pacific. He flew here yesterday from the Pacific coast.

Whether the occupation assignment is a long-time one, Stimson did not say. The secretary said that Gen. Mark Clark, commander of Allied ground forces in the Mediterranean, will return to his post soon.

The war department announced that the fast-moving Third army which Patton led across Europe, and the Seventh, also combat veterans, will stay in Germany, was in itself surprising. The Fifteenth army had been generally considered as the probable occupation outfit.

Fifteenth Stay Awhile
Stimson said the Third and Seventh armies "rather than the Fifteenth" will be the occupation force, but reports from Europe said the Fifteenth will stay until December. Presumably, if it can be spared then, it will come home. Reports here were that it might be disbanded as an organized unit and its forces assigned to other groups.

The Seventh army fought under the command of Lt. Gen. Alexander Patch, but he returned to the United States recently and was succeeded in command by Lt. Gen. Wade H. Haislip.

'Out Of This World' From Front Lines

KANSAS CITY, June 14.—(P)—The sky was cloudy, but it was wonderful weather to three soldiers right off the front lines at Okinawa who paused here today on an airplane trip to Washington.

"It's out of this world," smiled Capt. John M. Harbison, 28, Crane, Tex. "It's a dream. It couldn't happen but once in a lifetime."

"Somebody taps your shoulder back on Okinawa. You got your hands full with what's in front of you and all around you. You hear somebody tell you about going home for at least 60 days. Things don't happen this way except in movies or books."

The Okinawa veterans are to report in Washington for a brief assignment in connection with the Seventh War Loan. Later they will see their friends and relatives.

The three were the first of 30 Washington-bound men, who will be passing through Kansas City in the next 24 hours.

'Just Took the Bridge' States Pfc. Reed

Sedalian Awarded Silver Star For Rhine Crossing

Pfc. Martin Reed, Jr., son of Mr. and Mrs. Martin Reed, 316 East Boonville, in a recent picture that appeared in the Charleston, S. C. Evening Post, was showing the Silver Star he was awarded for being one of the nine privates to seize the Ludendorf bridge at Remagen in March, opening the American drive across the Rhine. In the picture he is shown aboard the army hospital ship Louis A. Milne as it neared the Charleston port of embarkation. Shown with him were Pfc. Raymond Kauble, 26, of Perry, who was shot by a sniper in Germany and Sgt. Charles Rand, 38, Cartersville, Mo., transportation corps signalman who was wounded in Hamburg, Germany. It was an official U. S. Army photo.

The following article accompanied the picture:

"One of the nine infantry privates who captured the Ludendorf bridge at Remagen to spearhead the American drive across the Rhine river arrived home yesterday."

"He is Private First Class Martin J. Reed, Jr., 22, of Sedalia, Mo., who was one of the 937 American sick and wounded arriving from Avonmouth, England, aboard the army hospital ship Louis A. Milne at the Charleston Port of Embarkation. He and the eight others were awarded Silver Stars."

"A member of Company A of the 27th Infantry battalion, Pvt. Reed arrived at the west side of the bridge shortly after 11 o'clock the morning of March 7."

"Reconnaissance patrols reported that the bridge was intact. Private Reed related from his bed on the mercy liner. He was shot by a sniper in mid-April. Our company was assembled and we were told that we were to take the bridge. That was all there was to it—just the order: 'Take that bridge!'"

"Three platoons split up and flanked ours as we moved closer about 2 o'clock in the afternoon. An enlisted man from the engineers moved ahead of us after we forced the krauts back to the far end of the bridge. He started to remove the demolitions."

"From then on it was easy. There were nine of us and we started across. The only trouble we had was with a machine-gun in one of the towers on the east side. Private Phillip J. Lawrence and Private First Class Jack Berry cleared them out with hand grenades."

"That engineer, meantime, was under the bridge, cutting away the TNT. We didn't have much time to think about the explosives on the way across, because we were too busy dodging the grenades and mortar shells the Nazis were tossing."

"We really hit the opposition on the other side. There was a steep incline on top of which was an ack-ack gun. The Germans turned it on us and opened up. The massacre was really horrible. We called the spot "Flak Hill."

"Shortly afterwards, other units in our battalion came over and we started widening the bridgehead. After nightfall, the engineers started constructing a pontoon bridge. And we all cheered when the tanks came across the Ludendorf bridge about midnight."

"The next day, the Germans sent in every plane they had in the area to bomb out the bridge, but it was too late for them to do any good."

"Private Reed was shot by a sniper while riding on a tank about 140 miles from Berlin on a super highway. He received his decoration while in a hospital in England."

Three Burn To Death In Collision

COLUMBIA, Mo., June 14.—(P)—Three persons burned to death today in the flames that swept their truck after a collision on the U. S. Highway 63 bridge ten miles north of here. A six-year-old boy who ran to the scene was bitten by a copperhead snake.

Gasoline from one of the trucks, a fuel transport, fed the flames that engulfed the wreckage.

The state patrol listed those burned to death as:

Mrs. Nellie Johnessee, 37, of Joplin; Dick Jamison, 22, of Falls City, Neb., who was riding with Mrs. Johnessee in one truck, and John R. Terrell of Macon, Mo., driver of the gasoline transport.

Gerald Nichols will recover from the poisonous snake bite, a physician who treated him said, after the boy was given first aid by a patrolman and sent here to a hospital.

William Johnessee, 44, who was driving his car immediately in front of the truck his wife was operating, told a state patrolman his car and the transport truck brushed lightly as they met on the bridge. He told the officer he did not stop immediately but got past the bridge approach before looking around. Then, he said, he saw both trucks blazing.

Firemen from Columbia put out the fire but the wreckage of the two trucks blocked the highway for several hours. No serious damage was done to the steel bridge.

Lieut. (J. G.) Robert D. Holloway Visitor

Lieut. (J. G.) Robert D. Holloway of Kansas City, who was in charge of public relations during the construction period at the Sedalia Army Air Field, was in Sedalia Thursday evening visiting friends.

Lieut. Holloway recently returned from 22 months service in the Pacific and will report to the naval air base at Ft. Lauderdale, Fla., the first of July, for temporary duty.

He entered active duty in the naval reserves in September, 1942.

A Drink of Liquor Would be Expensive To Wealthy Clubman

PHILADELPHIA, June 14.—(P)—Maj. Wakeman Griffin Gribbel, wealthy Philadelphia clubman, must forfeit a \$50,000 bond if he takes a drink of intoxicating liquor during a seven years' probation period or fails to report monthly to quarter sessions court.

Gribbel, World War I veteran, was placed on probation yesterday and ordered to post the bond after pleading guilty to charges of stabbing a waiter in December, 1943.

Ask Head of OPA District To Visit City

Judge Kesterson Questions Frank Rose Temporary Clerk

Despite prolonged difficulties over chairman and clerks on the Pettis county ration board, a considerable amount of work was accomplished Thursday in the ration office in the court house, and a backlog of work will be overcome by the end of the week, predicted Frank Rose of the Kansas City office, who is acting as chief clerk until a new appointment to that position is made.

Re-issuing of rationing sugar was resumed with a number of applications being processed and certificates put into the mail. An increase in mailings is expected in the next few days, according to Rose.

Clerks are two-thirds through the alphabet in the third quarter applications for transport mileage renewals, and all will be in the mail by Friday night, Rose said.

Issue Tire Certificates
The office resumed issuance of tire certificates for passenger cars and trucks and a substantial number of certificates were placed in the mail Thursday afternoon.

Several volunteer workers assisted Thursday in bringing gas and fuel oil files up to date and also worked on the mailing of the transport renewal applications, Rose explained, adding that their services are appreciated.

"The purpose of the office is not to withhold items from the public, but to see that all receive their fair share under wartime rationing," the acting chief clerk declared.

He said that applications for a chief clerk and one other clerk, paid positions, have been placed with the personnel department of the district office through the local civil service secretary, the routine procedure in filling such positions.

Snyder Resigns As Chairman Ration Board

Frank Rose, Of Kansas City, Acting Chief Clerk

Roy Snyder, chairman of Pettis County Ration Board No. 5480, has resigned as chairman, effective June 12, the resignation being accepted by J. G. Callaway, district director, Kansas City, in a letter written to Mr. Snyder, received Monday. Mr. Snyder, however, has accepted appointment to the Price Panel, of which he was chairman prior to accepting the chairmanship of the board late last fall.

Mr. Snyder stated he had written his letter of resignation to Mr. Callaway on June 7, after a "flare-up" which occurred in the rationing office. He said the letter from Mr. Callaway was received Monday, in which he accepted the resignation effective as of June 12.

Ilgenfritz In Charge Mr. Callaway also notified Mr. Snyder through this letter he was informing William M. Ilgenfritz, vice-chairman of the board, of the resignation and that he (Ilgenfritz) would carry on until a chairman has been officially appointed.

Disension has been experienced in the ration board since last fall, at which time Miss Ruth Anderson resigned as chief clerk following a change of operations of the office, on orders of Clarence P. Short, district supervisor.

Shortly thereafter E. F. Haussam, Jr., chairman of the board tendered his resignation which was accepted by Mr. Callaway, who in turn appointed Snyder to succeed him.

Friction continued between employees, members of the board and the district office. The resignation of Charles O. Botz, chairman of the tire panel, was requested and later his services terminated by Mr. Callaway.

New Chief Clerk All women employees, with the exception of the chief clerk, Miss Thelma Young, whose resignation has since been accepted, walked out, returning to their work after a conference with panel members and assurance from the district office that matters would be "straightened out."

At a call meeting of the panel members, at which Mr. Short, the district supervisor, set forth rules and regulations, it was voted to ask Mr. Callaway to come to Sedalia. So far there has been no reply from him.

A representative of the Kansas City office, Frank Rose, has been sent to Sedalia to take charge of the office temporarily, until a chief clerk is named.

Red Cross Corner

With the arrival of material for the current kit bag quota, Mrs. W. D. Steele, chairman of the kit bag program, will announce the date for the resumption of work sometime during the coming week. It is expected that the bags will be cut and assembled, and made ready for sewing on Monday. Chairmen of the different groups of Sedalia women who have participated in this project will be notified by Mrs. Steele, and in turn will notify their workers. All Red Cross volunteers who have given of their time and their energies in order that our men in all the war theatres may have a kit bag, are asked to keep in mind the fact that it is time for another job of work, and to be prepared to come back to their sewing machines on very short notice. Regular schedules will prevail, each group working the same day and same hours as last time.

Mrs. Arthur Hoffman, chairman of staff assistants, has asked us to remind you again that a new class in Red Cross Staff Assistance will be held in a few weeks, with Mrs. Herbert Seifert instructing. The course will be streamlined to meet the hurry-up requirements of the summer, and it is expected that the enrollment will be large. We are asking for volunteers for this all important Volunteer Service. Why not register now? Do so by calling ARC headquarters, 618.

A memorial service will be held at the State Fair Grounds June 24, and Red Cross Volunteers are asked to participate in the services. All members of the various corps and services are requested to call their chairmen and to inform them whether or not they will be able to take part.

The following members of the Red Cross Canteen went to the SAAF Station Hospital Sunday afternoon to serve refreshments to the patients: Mrs. H. F. Rapp, Mrs. Henry Nieman, Mrs. John Staubli, Mrs. J. B. Poindexter, Mrs. S. E. Bushey, and Mrs. I. K. Espe.

Highest Honor In London To Eisenhower

Citizens Pay Homage to Leader Of Allied Armies

By W. W. Hercher

LONDON, June 12.—(AP)—Gen. Eisenhower received London's highest honor—the honor ary freedom of the city—today and heard Prime Minister Churchill call him a great commander with the capacity to direct armies and "to stir men's hearts."

Later King George VI invested Eisenhower with the Order of Merit at Buckingham Palace. The Allied commander is the first U. S. soldier to receive this honor. The king presented the insignia with its crossed swords and blue and crimson ribbon to Eisenhower informally at a tea.

Fourth American So Honored

Eisenhower was the fourth American to receive the freedom of the city. The others were Gen. John J. Pershing, Gen. Ulysses S. Grant and Theodore Roosevelt. He was the first American soldier to receive the order of merit, which was instituted by King Edward VII in 1902 as a personal honor from the king.

A crowd of more than 30,000 stood outside the mansion house as Eisenhower's official party arrived at the Lord Mayor's residence for luncheon after the ceremony at the Guildhall.

With all the pomp and circumstance of empire, London paid homage to the American who led the Allied armies to victory in the West.

Speaking from a balcony draped in red and decorated with banners and laurel wreaths, Eisenhower told the throng:

"You have done something in cementing the bonds that must always remain between your country and mine and into which scope must be brought Russia, France, China and all the other great countries that have helped to whip the Nazis and we hope will quickly whip Japan."

Churchill, who received a similar honor from the city shortly before Gen. Eisenhower loosed American and British armies upon the shores of Normandy, declared the General had shown "the capacity for making great nations march together more truly united than they ever had been before."

Refers To Humility

Accepting the honor, Eisenhower said "humility must always be the portion of any man who receives acclaim earned in the blood of followers and the sacrifices of his friends."

Jay Nicholson Back in States

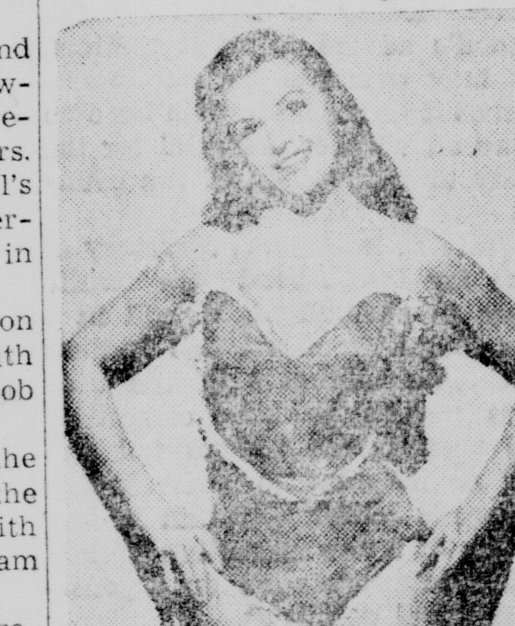

Mr. and Mrs. Jay Nicholson, 1400 East Thirteenth street, have received word from Cpl. Jay Nicholson, Jr., that his brother, Cpl. Gerald Nicholson, has arrived in Camp Lejeune, N. C.

He had been unable to locate his brother at the camp, so went to his residence and Cpl. Nicholson, Jr., wrote he could not believe his eyes when Cpl. Gerald Nicholson walked in.

They have been separated four and a half years, but expect to be transferred to the same company and will be at the same base.

Mrs. Jay Nicholson, Jr., has returned from Kansas City where she has been with her sister, Mrs. Hal Haggard of Sweet Springs, who underwent a major operation at the Lakeside hospital. Mrs. Haggard is getting along nicely and expects to return to her home in two weeks.

VFW Critical Of Veterans L. I. Hospital

Inadequate Hospitalization In Many Places

WASHINGTON, June 12.—(AP)—Three veterans organizations differed today over conditions in veterans hospitals with one reporting "sickening examples . . . of physical violence" and the other two finding conditions generally good.

Investigators for the Veterans of Foreign Wars said the physical violence occurred in a veterans hospital at Northport, N. Y.

The organization placed the result of a hospital-by-hospital inspection before the House Veterans committee investigating the Veterans Administration.

It said 47 per cent of all veterans hospitals provide inadequate hospitalization, it criticized VA management here and in the hospitals and reported a shortage of trained doctors, of beds and facilities.

Simultaneously, two other ex-service organizations filed separate reports with the committee.

The American Legion said that "on the average" conditions in veterans hospitals were found to compare favorably with civilian institutions and in some instances were better.

General Conditions Good

The disabled American veterans reiterated that there should be more hospital construction but that "in general, conditions at veterans hospitals are good." The DAV report first had been made public last week.

All three reports were filed with the veterans committee investigating published charges of inefficiency, inadequacy and neglect in government hospitals.

"Our first recommendation," said VFW, "is for this committee to set in motion an 'undercover' probe, assuring immunity to each complainant. Such a survey would do well to give the most careful analysis to conditions reportedly existing in neuropsychiatric hospitals, starting with Northport, L. I. N. Y., where sickening examples of the results of physical violence were witnessed by VFW investigators."

In a separate report on northport the veterans organization said it investigated "numerous complaints of beating mistreatment of patients."

Digest of Conditions

The VFW and the American Legion presented a digest of conditions in the various hospitals. The list includes:

Wichita, Kas.: (AL) Food served cold; discipline too strict; no other specific complaints. (VFW) No report.

Jefferson Barracks, Mo.: (AL) Patient morale very good; patient discipline, excellent; equipment, canteen, poor; treatment and care good. (VFW) Lack of administrative authority; inadequate recreational facilities and transportation; disabled and overage physicians.

Excelsior Springs, Mo.: (AL) Good to excellent. (VFW) No report.

Muskogee, Okla.: (AL) "Situation here very serious and complicated by growing racial problems;" removal of dietitian and recreation aid indicated; scientific equipment, recreation for World War II men, canteen, food, all poor. (VFW) Canteen unsatisfactory, food often served cold, recommendations that some older physicians be replaced by younger men.

Dr. E. S. Sulkin In Scientific Research Work

Aids in Partial Solution of 'Sleeping Sickness'

Of interest to Sedalians will be the following article from the Dallas Morning News concerning research work of Dr. S. Edward Sulkin, husband of the former Lorraine Levy of Sedalia, granddaughter of Mrs. Sylvain Kahn, 421 West Sixth street:

"Partial solution of a mystery which has long baffled science—how equine encephalomyelitis, popularly known as horse 'sleeping sickness,' which attacks humans, sometimes fatally, is spread—has been achieved in a Dallas laboratory.

"Dr. S. Edward Sulkin, professor of bacteriology of Southwestern Medical College, confirmed Wednesday (April 18) that he had been successful in isolating the virus of equine encephalomyelitis from chicken mites.

Interest began in St. Louis "Dr. Sulkin's interest in the disease, from which one person died in Dallas last year, began in St. Louis in 1933 when a major outbreak occurred among the human population while he was with the Washington University School of Medicine.

"At that time, a research commission was set up in which Dr. Sulkin participated. Antibodies to the virus had been found in the blood of chickens, showing that the fowl were infected by the virus.

"Mosquitoes and ticks are known to be capable of carrying the virus and mosquitoes are believed to be the agents that spread the disease among humans. Barnyard fowl apparently constitute a reservoir of infection, but Dr. Sulkin and other scientists wondered what kept the infection going among chickens between epidemic periods.

"A report came from St. Louis last fall that the St. Louis type virus had been found in mites collected from chickens in the St. Louis area.

"Scoop Up Mites "During the past year, 1,000 horses on Texas farms and ranches have contracted the disease, Dr. Sulkin said. He made numerous field trips to these ranches where he would 'scoop up' mites from the walls of chicken houses and return them in vials to the laboratory.

"There they were ground in a mortar and injected into the brains of laboratory animals, usually mice, who invariably contracted the disease. These blood-sucking relatives of spiders and ticks apparently passed the virus from chicken to chicken, keeping alive the dangerous reservoir of the disease.

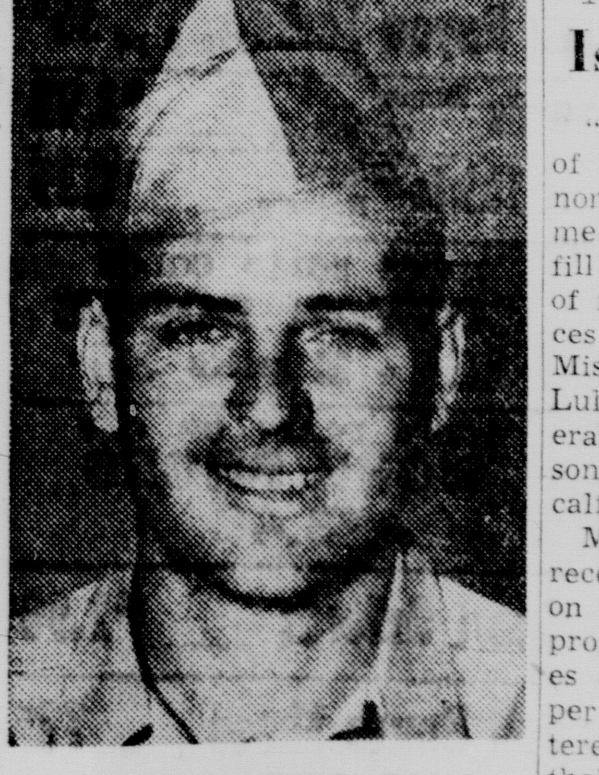

"Dr. Sulkin came here two years ago from St. Louis. Studies are now in progress, he said, to determine whether under experimental conditions in the laboratory hereditary transmission of the virus in chicken mites can be effected."

Dr. Sulkin recently assumed the chairmanship of the bacteriology department of Southwestern Medical College.

Story of 6th Armored Division Of 3rd Army at Bastogne Told

Cpl. Leonard Sigman Sitting On Top

From the Third Army front in Germany came the story of the 6th Armored Division, one of Gen. George S. Patton's thundering tank columns in which Cpl. Leonard Sigman, along with many other Sedalia boys, is a member. Cpl. Sigman recently sent home to his wife, Mrs. Edna Sigman of Spring Fork, a book in which the story of the 6th Armored Division from Brest to Bastogne is told. The book was printed by the Stars and Stripes with the aid of Gen. R. W. Grov, Division Commander. Following is this story in part:

"Each member of the 6th Armored Division has ample reason to thrill with pride for what he and his comrades have accomplished. The story as told describes the heroic action of how these men fought from one success to another through the whole of Northern France from Normandy to Brittany to the leaders of Luxembourg and on the road to Berlin. The story is dedicated to our fallen comrades whose spirits will never be forgotten and forever urge us on to win peace. 'Bloody Bastogne—thirty days of freezing Hell!'"

This was the end of the first six months of combat for the 6th Armored Division. For twenty-three snow bound freezing days the 6th and Nazis fought a see-saw battle.

A. J. Perry
Andrew Jackson Perry, 1201 South Kentucky avenue, owner of the Perry Music Publishing Company, died at the Bothwell hospital at 7:30 o'clock Sunday morning where he had been a patient since June 4, with a bronchial trouble. He had been in failing health for sometime.

Mr. Perry was born in St. Joseph, Mo., on January 8, 1866 the son of Austin Waite and Phoebe Perry. His father started in the music publishing business in St. Joseph in 1856, and came to Sedalia in 1870 where he established the present A. W. Perry and Sons music company. Mr. Perry received his education in the public schools of Sedalia after which he became associated in business with his father and his brother, Philip B. Perry.

He was married to Miss Clara Jegglin of Boonville, Mo., on June 27, 1894, who survives him. One daughter, June, was born to this union and died in 1910.

Mr. Perry was a member of the Broadway Presbyterian church and the B. P. O. Elks.

Surviving besides his wife, who is now a patient at Bothwell hospital, is his brother, Philip B. Perry of Kansas City. A sister, Mrs. Kate Austin Gregg, preceded him in death.

Funeral services will be held at the McLaughlin funeral chapel at 2:30 o'clock Tuesday afternoon with Rev. Robert C. Williamson, pastor of the Congregational Presbyterian church to officiate.

Organ music will be by Miss Mabel DeWitt.

Large Crowds See 'Here's Your Infantry'

An estimated well over 6,000 persons were eye witnesses to what United States Army Ground Force Infantrymen, actually go through with—even to the weather—in a portrayal of infantry combat staged at the State Fair grounds Saturday evening by G. I. Joes in the "Here's Your Infantry" show.

Crawling through mud and debris in a downpour thirty-nine men in a combat reconnaissance patrol invaded a Japanese pillbox using flame-throwers, rifles, bazookas, machine guns, hand grenades and other infantry equipment. Faked casualties and caring for supposedly wounded men added much to make the show impressive and vivid.

Bonds Mean A Lot

Each piece of equipment, wearing apparel or accessories so necessary to the successfulness of the infantryman's life, was priced in terms of war bonds and stamps by an announcer over loud speakers to the audience, showing how the buying of just a bond or even a stamp may at some time mean an awfully lot to the fighting infantrymen who very often get into hot "pinches"—maybe even their lives.

All Overseas Veterans

Everyone of the men participating in the unit are veterans of overseas combat service from every theatre, acting as "ambassadors" of General Stillwell's army ground forces to the U. S. Treasury Department to help promotion of the Seventh War Loan Bond Drive. Also helping their buddies they left behind to keep on fighting.

This unit, one of 27 which are touring the country, is playing Iowa and Missouri and will show in Jefferson City next Tuesday night. There are seventy-eight in this unit and about 1100 in the whole program.

With each presentation a unit makes, a number of hours have to be spent in preparing the field for action. Sand pits and protecting materials must be set up so that the high explosives and gun fire will not damage the field or get out of control.

Display In Afternoon

Preceding the evening program a display of part of their equipment was shown and demonstrated on Fifth street between Ohio and Lamine avenues in the afternoon. Ending the afternoon display a retreat ceremony took place in which the flag was lowered and a volley fired by a six man rifle team.

A Ft. Riley 265th army ground force infantry band gave a stirring band concert at the afternoon exhibition and also played numerous patriotic and other appropriate number at the evening attraction.

During an intermission of the first and second phases at the evening performance Rev. Fordyce Eastburn gave a short pep talk on buying war bonds. Many of the members of the unit were introduced and a short synopsis given of where they had been and about them, preceding his address.

Several of the men in the show are from communities near here.

In command of this unit is Lieutenant Meyel H. Haack, assisted by Lieut. R. A. Trimble, platoon leader, and Lieut. Paul T. Himill, who is announcer and master of ceremonies at the programs.

Tables For Bonds

At the afternoon display tables were placed conveniently where applications for bonds were taken by numerous Sedalia women who had volunteered to assist in helping boost the sales of the war bonds.

Ask Head of OPA District to Visit City

(Continued From Page One)

of the Pettis county rationing board.

Mr. Ham was called and asked whether William M. Igenfritz, acting chairman of the board since the resignation of Roy Snyder Tuesday, was in Kansas City today to be sworn in as the chairman and if Mr. Snyder, who went back to the Price Panel board, was being appointed to his former place as chairman of the board.

Mr. Ham said that as far as he knew Mr. Igenfritz was not in Kansas City but is acting chairman, that Mr. Callaway, the district director, was at the regional office in Dallas, Tex., and he was sure he had no appointment with Mr. Igenfritz for Thursday for the purpose of making him chairman. He said he was unaware of the fact that Snyder was the Price Panel Board chairman, but said he was back as a board member. As to his appointment as chairman of the panel, that is strictly up to the rationing board chairman.

No Change in Supervisor

Asked if Clarence P. Short was to be transferred as was requested by a group of the local board members at a meeting recently, he replied, "No, if that is what it takes to settle things, they'll stay muddy for five years if that is what they want."

When questioned concerning Mr. Snyder being put on as a panel member he said that he personally didn't know of anything which necessitated the resignation of Mr. Snyder as the board chairman.

Queried about Mr. Botz's removal and the reason, he replied "Yes, for the way he acted as a member in front of the tire clerk and his talk to the district supervisor, Mr. Short."

Meeting Was Held

A meeting of more than fifteen members of the various rationing board panels was held in the offices of the Chamber of Commerce, Thursday, for the purpose of insisting on a visit to Sedalia by J. G. Callaway, district director, to discuss the Pettis county troubles, and to acquaint him with the position of the board members.

C. L. Hanley, a member of the board since rationing began, acted as chairman of the meeting. During this meeting it was brought out that the board members want the people of Pettis county to know that there is no dissension among the boards and that as far as they are concerned harmony exists among the panel boards as a whole. The difficulties seem to emanate from the Kansas City offices, according to discussion at the meeting.

The group decided that chairmen of the various panels or a representative of the panels would call upon the Pettis county court and seek assistance in getting Callaway to come to Sedalia and meet with the panel chairmen and the county court to discuss the local situation, and then in turn after their conference meet with all members of the rationing board.

The group went to the court house and conferred with the county court and Judge J. V. Kesterson was very emphatic as to the stand of the court and assured the group the court would insist on a visit by Mr. Callaway.

Judge Questions Rose
During the course of the meeting with the court, it was brought out that Miss Hazel Hurt, tire clerk, who was informed Tuesday evening her services had terminated as of June 7, and who reported back Wednesday to sit at her desk, had been ordered not to return by Frank Rose, acting chief clerk, who came to Sedalia from the Kansas City office. Judge Kesterson then telephoned downstairs to Mr. Rose who was in the rationing office for Mr. Rose to come to the meeting in the court room.

Mr. Rose was asked by Judge Kesterson if he had ordered Miss Hurt out of the office, and if he had indicated he would throw her out if she came back. Mr. Rose replied, "No, I didn't threaten to throw her out, but I did order her not to come back to the office. I can't make any further comment."

Judge Kesterson then said, "I understand from these gentlemen, and from others that she is a very efficient clerk. What reason can you give for such orders?" and to this Mr. Rose said, "I have no comment."

County Cooperated

"I want you to know Mr. Rose," said the judge, "that this county court has cooperated with the Kansas City office as well, if not better than any county in the district. We have worked wonderfully with the Defense Council, which I understand made the appointments here, and I want you to know, and anyone else interested, to know, that this court won't stand for any 'brass hats' from Kansas City or anyplace else, coming down here."

Guest Officers At Kiwanis

Jefferson City and Sedalia Kiwanis clubs exchanged presiding officers and programs Thursday. President Clyde Heynen of Sedalia going to the Capital City and President Edgar M. Eagan of the latter city coming to Sedalia.

Accompanying President Heynen as guest speaker before the Jefferson City club was Mrs. Harry Lindstrom, wife of Kiwanian Lindstrom.

President Eagan brought with him the Rev. Henry Damm of the Evangelical church, who spoke before the Sedalia club about the San Francisco Conference. His talk was an educational one explaining the conference organization setup, its objectives and preliminary accomplishments.

Ray Hunt called attention to Father's Day Sunday and asked members to attend church that day. George H. Scruton announced the Elks Flag Day services held at Liberty park Thursday night.

Guests were: Charles Messerly, former charter member of the Sedalia club and now president of the Rotary club in St. Louis, Mich. where he lives. He was with his father-in-law, W. M. Johns.

Clarence Evans, Missouri Pacific tower operator, became a new member of the club and was inducted by the Rev. Bird Campbell of the Education committee.

to Pettis county and kicking our citizens around. We just don't like it... that's all Mr. Rose," Judge Kesterson concluded.

One member of the local group remarked, "Same old story, just a lot of buck passing. It's the same thing that happened when Short was here, nobody has any authority to tell what's going on, yet they represent themselves as representatives from the district office."

Judge Kesterson placed a call to Kansas City for Mr. Callaway, and was informed he had gone to Dallas, to the regional office. He informed the group the court would endeavor to contact Mr. Callaway and ask him to come down.

Home Town And Kansas City Plan To Entertain President
(Continued from page one)

their own at the summer White House.

Fly Charter To Washington

WASHINGTON, June 14—(P)—Soon after the world organization charter is signed in San Francisco, President Truman will fly it to Washington in the hope the senate will ratify it before he meets next month with Marshal Stalin and Prime Minister Churchill.

The White House made this disclosure today along with plans to expand the President's ambitious flight schedule to include homecoming celebrations late this month in his home state of Missouri.

Latest word here is that the conference expects to wind up by June 23. The President still plans to visit Olympia, Wash., either before or immediately after his San Francisco speech to the final session of the united nations conference. He also received a second invitation today to visit Oregon while in the northwest but made no commitment.

Charles G. Ross, White House press secretary, told reporters the President will fly the San Francisco charter to Washington and present it to the senate without delay. He did not know whether the President would go in person before the senate and ask approval of the historic agreement.
